Permit No. G-4513

CERTIFICATE NO. 38981

APPLICATION FOR A PERMIT

To Appropriate the Ground Waters of the State of Oregon

I, GENERAL FOODS CORPORATION, BIRDS EYE DIVISION
(Name of applicant)

of P.O. Box 36, Woodburn, county of Marion
(Postoffice Address)

state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

State of Delaware, 1922

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Pudding River
(Name of stream)

tributary of Willamette River

2. The amount of water which the applicant intends to apply to beneficial use is 1.782 cubic feet per second or 800 gallons per minute.

3. The use to which the water is to be applied is Processing Fruits & Vegetables

4. The well or other source is located approx 680 ft. N and approx 30 ft. W from the SE corner of Section 18 Township 5S Range 1W
(N. or S.) (E. or W.)
(Section or subdivision)

located in SE quarter-quarter section of SE quarter section.
(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the Boundary SE SE of Sec. 18, Twp. 5S, R. 1W
W. M., in the county of Marion

5. The Pipe Line to be 1/5 miles
(Canal or pipe line)
in length, terminating in the S. E. Corner of Sec. 18, Twp. 5S
(Smallest legal subdivision)
R. 1W, W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is GF Well #7

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

Flow will be controlled by a pump which operates off a pressure control in a fresh water storage tank.

8. The development will consist of one well having a diameter of 16 inches and an estimated depth of 350 feet. It is estimated that 300 feet of the well will require steel casing. Depth to water table is estimated approx 30 feet.
(Kind) (Feet)
(Per Water Report, Spring 1961)

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake in.; in size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type Peerless Multistage - Size to be determined after development.

Give horsepower and type of motor or engine to be used 50 HP Electric 440

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development
Not applicable.

12. Location of area to be irrigated, or place of use

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
5 South	R 1 W M	18	SE Quarter-Quarter section OF SE Quarter section	

(If more space required, attach separate sheet)

Character of soil Willamette Silt - Troutdale Formation

Kind of crops raised Used for processing only.

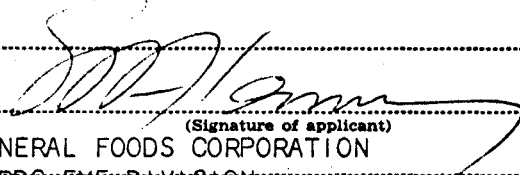

13. To supply the city of
in county, having a present population of
and an estimated population of in 19.....

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$ 27,000.....
- 15. Construction work will begin on or before within one year of date of permit.....
- 16. Construction work will be completed on or before 12-31-69.....
- 17. The water will be completely applied to the proposed use on or before 12-31-69.....

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant.

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 1.78 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from well No. 7

The use to which this water is to be applied is industrial use for processing fruits and vegetables.

If for irrigation, this appropriation shall be limited to _____ of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed _____ acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is March 27, 1969

Actual construction work shall begin on or before December 17, 1970 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1971

Complete application of the water to the proposed use shall be made on or before October 1, 1972

WITNESS my hand this 17th day of December, 1969

Chris J. Wheeler
