supply when not in use must be described.

8. The development will consist of 1 well having  
(Give number of wells, tunnels, etc.)  
diameter of 8 inches and an estimated depth of 140 feet. It is estimated that 100  
feet of the well will require iron casing. Depth to water table is estimated 50  
(Kind) (Feet)

13. To supply the city of .....  
in ..... county, having a present population of .....  
and an estimated population of ..... in 19.....

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$..... 2,000.....
- 15. Construction work will begin on or before ..... May 1, 1969.....
- 16. Construction work will be completed on or before ..... June 1, 1969.....
- 17. The water will be completely applied to the proposed use on or before ..... June 15, 1969.....

18. If the ground water supply is supplemental to an existing water supply, identify any appli-  
cation for permit, permit, certificate or adjudicated right to appropriate water, made or held by the  
applicant. ....

GEORGIA-PACIFIC CORPORATION

By: *[Signature]*  
VICE (Signature of applicant) President

Remarks: ..... New well is 20' east of the old well which was inadequate as it  
was 4" wide and only 50' deep and partially cased. This well is no longer  
used. New well is to be used to maintain safe water level in the pond used  
for fire protection. Pump is controlled by a float switch at the pond to  
assure no overflow.

STATE OF OREGON, }  
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying  
maps and data, and return the same for ..... ~~completion~~ .....  
correction and completion

In order to retain its priority, this application must be returned to the State Engineer, with correc-  
tions on or before ..... ~~October 20th~~ ..... 19 ~~69~~ ..  
November 10th 69

WITNESS my hand this ..... 20th ..... day of ..... ~~August~~ ..... 19 ~~69~~ ..  
8th September 69

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.12 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is fire protection

If for irrigation, this appropriation shall be limited to \_\_\_\_\_ of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed \_\_\_\_\_ acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is August 14, 1969

Actual construction work shall begin on or before December 10, 1970 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1971

Complete application of the water to the proposed use shall be made on or before October 1, 1972

WITNESS my hand this 10th day of December, 1969
