APPLICATION FOR A PERMIT

ASSIGNED, See Misc. Rec., Vol. 5 Page 209

ASSIGNED, See Misc. Rec., Vol. 7 Page 2753

To appropriate the Ground Waters of the State of Oregon

By the Triple L Enterprises, a partnership
(Name of applicant)
of 3308 SW Jay Ave Pendleton, county of Umatilla
(Postoffice Address)

state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Two mile Creek
(Name of stream)

tributary of Meadam Creek

2. The amount of water which the applicant intends to apply to beneficial use is _____ cubic feet per second or 100 gallons per minute.

3. The use to which the water is to be applied is domestic for cabin sites

4. The well or other source is located 1543.32 ft. N 61° 34' 41" W and _____ ft. from the SE corner of Section 28 T1N R35E W1M
(Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the SW 1/4 of Sec. 28, Twp. 1N, R. 35E, W. M., in the county of Umatilla

5. The _____ to be _____ miles
(Canal or pipe line)
in length, terminating in the _____ of Sec. _____, Twp. _____, R. _____, W. M., the proposed location being shown throughout on the accompanying map.
(Smallest legal subdivision)

6. The name of the well or other works is Papoose Woodlands Well #2

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of one well having a
(Give number of wells, tunnels, etc.)
diameter of 6-8 inches and an estimated depth of 590 feet. It is estimated that 66 feet of the well will require 8" 250 ga. Steel casing. Depth to water table is estimated 285
(Kind) (Feet)

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake in.; in size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type

Give horsepower and type of motor or engine to be used

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of area to be irrigated, or place of use

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
1N	35E	28+33	S 1/2 SE 1/4 sec. 28 N 1/2 NE 1/4 sec. 33	93 ±

(If more space required, attach separate sheet)

Character of soil

Kind of crops raised

13. To supply the city of
in county, having a present population of
and an estimated population of in 19.....

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

14. Estimated cost of proposed works, \$ 6100.00

15. Construction work ^{was begun} ~~will begin~~ on or before May 26, 1969

16. Construction work ~~will be~~ ^{will be} completed on or before ~~June 15, 1969~~ Oct. 1, 1971

17. The water will be completely applied to the proposed use on or before ~~1975~~ Oct. 1, 1972

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant.

Martin W. Ladd - Partner
(Signature of applicant)

Remarks: ~~In regard to 17 above water will be applied to individual lot use as needed. Full demand estimated within 5-7 years. We anticipate serving up to 100 families with this well. There is room for more development on the 93 acres but may require another well.~~

We anticipate that approximately ¹⁶⁵ ~~750~~ homes will be served by the end of the third full summer. Undoubtedly some buyers will not construct homes for several years.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for completion.....

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before October 22nd....., 1969...

WITNESS my hand this 22nd day of August, 1969.

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.22 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is group domestic use

If for irrigation, this appropriation shall be limited to _____ of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed _____ acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is August 11, 1969

Actual construction work shall begin on or before Juen 4, 1971 and shall

thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1971

Extended to Oct. 1 1980 Extended to Oct. 1985

Complete application of the water to the proposed use shall be made on or before October 1, 1972

Extended to Oct. 1 1980 Extended to Oct. 1985

WITNESS my hand this 4th day of June, 1970
