

Permit No. G-4680

CERTIFICATE NO. 43844

APPLICATION FOR A PERMIT

To Appropriate the Ground Waters of the State of Oregon

I, James H. Williams (Name of applicant)
of Box 678D, Route One, Cottage Grove, 97124, county of Lane
(Postoffice Address)
state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Coast Fork Willamette River
(Name of stream)

tributary of Willamette

2. The amount of water which the applicant intends to apply to beneficial use is _____ cubic feet per second or 10 gallons per minute.

3. The use to which the water is to be applied is Irrigation

4. The well or other source is located 98 ft. S and _____ ft. _____ from the SW corner of Plot 1, Tax lot 1, Section 10, T. 20S, R. 3W, W.M., Lane County
(Section or subdivision)

or S. 10° E., 1160' from the S.E. corner, R.C. Robinson, D.L.G. Number 44.
(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the SE 1/4 of the NW 1/4 of Sec. 10, Twp. 20S, R. 3W, W. M., in the county of LANE

5. The _____ to be _____ miles
(Canal or pipe line)
in length, terminating in the _____ of Sec. _____, Twp. _____, R. _____, W. M., the proposed location being shown throughout on the accompanying map.
(Smallest legal subdivision)

6. The name of the well or other works is _____

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of _____ having a
(Give number of wells, tunnels, etc.)
diameter of _____ inches and an estimated depth of _____ feet. It is estimated that _____ feet of the well will require _____ casing. Depth to water table is estimated _____
(Kind) (Feet)

CANAL SYSTEM OR PIPE LINE—

G 4680

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

✓(c) Length of pipe, 300 Ft. ft.; size at intake 2 Inch in.; in size at 300ft. ft. from intake 3 Inch in.; size at place of use 3 Inch in.; difference in elevation between intake and place of use, None ft. Is grade uniform? Yes Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type Two inch, Electric

Give horsepower and type of motor or engine to be used Two Horse, Single Phase

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

~~216~~ 210 Yards from coast fork to pond; The difference in elevation is approximately 15 feet.

12. Location of area to be irrigated, or place of use One mile N. Delight Valley School

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
20S	3W	10	SE 1/4 of the NW 1/4 Tex lot 4, Plot 1	1 1/2

Beginning at a certain stone marked with a cross, and C. S., said stone being the southwest corner of county survey #1987, said survey being recorded in book 5 at page 210 county surveyers record of Lane County Surveys; said stone also being on the mid-section line running North and South through Section 10, Township 20 South, Range 3 West Willamette Meridian, 1683 feet North 0° 11' East from the Southeast corner of lot 8 of said Section 10, said stone also being 1032.03 feet North 1150.46 feet west of the North west corner of the Thos. Clark Donation Claim no. 48, said township and Range from said Southwest corner of County Survey No. 1987, run North 1° 00' East 786.5 feet along said mid-section line, thence North 89° 00' West 20 feet, the initial point of beginning of this description, from said beginning point run North 1° 00' East 217 feet, thence North 89° 00' West 201 feet, thence South 1° 00' West, 217 feet, thence

(If more space required, attach separate sheet)

Character of soil River Loam

Kind of crops raised House yard, small orchard, garden, and pasture

South 89° 00' East 201 feet to the place of beginning. Containing one Acre.

This description does not include the remaining $3\frac{1}{2}$ acres because the survey crew has not had time to run the new lines as yet. As soon as they do and I receive a description I will forward it to you.

Application No. G-4960
Permit No. G 4680

MUNICIPAL SUPPLY—

13. To supply the city of _____
in _____ county, having a present population of _____
and an estimated population of _____ in 19_____

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$... 400.....
- 15. Construction work will begin on or before ... 8/1/69.....
- 16. Construction work will be completed on or before ... 8/1/72.....
- 17. The water will be completely applied to the proposed use on or before ... 8/1/72.....

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant.

James H. Williams
(Signature of applicant)

Remarks: This pond is located in an old slough bed, however
there is no influx of water other than underground seepage from the
river and no outflow other than periods of extremely high water
during the winter

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for completion

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before October 20th, 19 69.

WITNESS my hand this 19th day of August, 19 69.

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.06 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a sump well

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is August 14, 1969

Actual construction work shall begin on or before June 4, 1971 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1971

Complete application of the water to the proposed use shall be made on or before October 1, 1972

WITNESS my hand this 4th day of June, 1970
