If the applicant is a corporation, give date and place of incorporation FRANKLIN LINDSTROM & SONS, INC.
July 15 1959 - Attn: Eva & Schneider - 608 Public Service Bldg
Portland, Ore

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Willow Creek
(Name of stream)
tributary of _____

2. The amount of water which the applicant intends to apply to beneficial use is _____ cubic feet per second or 2500 gallons per minute.

3. The use to which the water is to be applied is Irrigation

4. The well or other source is located 325 ft. N and 1295 ft. E from the SW corner of west 1/2 of Section 32 S/W 1/4 of Section 32
(N. or S.) (E. or W.)
(Section or subdivision)
Twp. 2N. R. 24E
(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)
S/W 1/4 SW 1/4 being within the SE corner of SW 1/4 of Sec. 32, Twp. 2N, R. 24E, W. M., in the county of Morrow

5. The _____ to be _____ miles
(Canal or pipe line)
in length, terminating in the _____ of Sec. _____, Twp. _____, R. _____, W. M., the proposed location being shown throughout on the accompanying map.
(Smallest legal subdivision)

6. The name of the well or other works is _____

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of One Well having a
(Give number of wells, tunnels, etc.)
diameter of 16 5/8" 12 1/2" inches and an estimated depth of 250 feet. It is estimated that 40-70 feet of the well will require 18" steel casing. Depth to water table is estimated 250-300
(Kind) (Feet)

CANAL SYSTEM OR PIPE LINE—

G 4722

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake in.; in size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type ~~200-250 H.P.~~ 12" Bolls

Give horsepower and type of motor or engine to be used 200-250 H.P. Electric or Diesel

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of area to be irrigated, or place of use

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
2N	24E	32 west 1/2	8	320
2N	24E	29 N 1/4 SW 1/4	2	80
2N	24E	29 S 1/4 SW 1/4	2	80
				100

(If more space required, attach separate sheet)

Character of soil Light loam to sandy
Kind of crops raised Row crop, pasture, & alfalfa

MUNICIPAL SUPPLY—

G 4722

13. To supply the city of _____
in _____ county, having a present population of _____
and an estimated population of _____ in 19_____

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$ 16500⁰⁰
- 15. Construction work will begin on or before Oct 1, 69
- 16. Construction work will be completed on or before Dec 1, 69
- 17. The water will be completely applied to the proposed use on or before May 1, 70

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. _____

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 5.0 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well.....

The use to which this water is to be applied is irrigation.....

If for irrigation, this appropriation shall be limited to 1/80 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year;.....

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is September 25, 1969.....

Actual construction work shall begin on or before June 23, 1971 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1971.....

Complete application of the water to the proposed use shall be made on or before October 1, 1972.....

WITNESS my hand this 23rd day of June, 1970.....
