

Permit No. G- 4748

Sup. Cert. No. 63675 & 68765

APPLICATION FOR A PERMIT

To Appropriate the Ground Waters of the State of Oregon

I, Lee Foster (Name of applicant)
of P.O. Box 307 Stanfield 97875, county of Umatilla,
(Postoffice Address)

state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Umatilla River (Name of stream)
tributary of Columbia River

2. The amount of water which the applicant intends to apply to beneficial use is 0.79 cubic feet per second or 356 gallons per minute.

3. The use to which the water is to be applied is Supplemental Irrigation (See Remarks)

4. The well or other source is located 175 ft. N and 250 ft. W from the SE corner of Section 6 (Section or subdivision)
(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)
being within the SE SE of Sec. 6, Twp. 3N, R. 29 E, W. M., in the county of Umatilla

5. The portable pipe line (Canal or pipe line) to be unk. at present miles in length, terminating in the of Sec. of Twp. R., W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is J. F. Riley well

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

no

8. The development will consist of (~~5~~ 1) one well having a diameter of 4.8 inches and an estimated depth of 25 feet. It is estimated that 18 feet of the well will require concrete casing. Depth to water table is estimated 15 (Feet)

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, portable ft.; size at intake in.; in size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? yes Estimated capacity, 1.0 sec. ft.

10. If pumps are to be used, give size and type: 7 st Turbine 10MA T84363 Bore

Give horsepower and type of motor or engine to be used 40 HP 1800 RPM 440 Volt

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of area to be irrigated, or place of use T. 3 N., R. 29 E., Sec. 6, Umatilla County

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
3 N	29 E.	6	NE SE	7.9
"	"	"	NW SE	14.5
"	"	"	SW SE	28.2
"	"	"	SE SE	12.8

(If more space required, attach separate sheet)

Character of soil Sandy loam

Kind of crops raised hay, grain, pasture, row crops

MUNICIPAL SUPPLY—

13. To supply the city of _____
in _____ county, having a present population of _____
and an estimated population of _____ in 19_____

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$ 7,196.84
- 15. Construction work will begin on or before 4-9-69
- 16. Construction work will be completed on or before 4-21-69
- 17. The water will be completely applied to the proposed use on or before 10-1-69

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. Permit no. G-44 and G-1854, as well as a new permit that has not been issued

Appls. G-11317 & Adj. rights
X Lee F. Riley
(Signature of applicant)

Remarks: Application to be a request for additional supplemental right from J. F. Riley well permit no. G-44, dated 1954. I have purchased the Riley property and by using sprinklers can adequately cover my entire acreage. At present permit no G-44 is supplemental to Pioneer Ditch Company dated 1900, for 27.2 acres in SE SE. Permit no. G-1854 in the name of J. F. Riley dated 1961 for supplemental to Pioneer right for 10 acres in SW SE. Just recently I applied for a new supplemental permit for the above 10 acres as well as the remaining Pioneer rights in the SW SE and the NW SE all in sec. 6. I wish this right to supplement all Pioneer ditch rights from the later constructed well of which the application is now pending

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for completion.

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before January 19th, 1970.

WITNESS my hand this 19th day of November, 1969.

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.79 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is supplemental irrigation

If for irrigation, this appropriation shall be limited to 1/80 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year; provided further that the right allowed herein shall be limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein.

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is November 17, 1969

Actual construction work shall begin on or before July 13, 1971 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1971

Complete application of the water to the proposed use shall be made on or before October 1, 1972

WITNESS my hand this 13th day of July, 1970
