

Permit No. G- 4935

APPLICATION FOR A PERMIT CERTIFICATE NO. 42977

# To appropriate the Ground Waters of the State of Oregon

I, Keippie L. May (Name of applicant)  
of 208 W. Laird Hermiston (Postoffice Address), county of Umatilla,  
state of Oregon, do hereby make application for a permit to appropriate the  
following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is  
situated Umatilla River (Name of stream)  
tributary of Columbia River

2. The amount of water which the applicant intends to apply to beneficial use is 2 cubic  
feet per second or 80-90 gallons per minute.

3. The use to which the water is to be applied is IRRIGATION

4. The well or other source is located 100 ft. S (N. or S.) and 300 ft. W (E. or W.) ~~from the~~  
~~corner of~~ see description on back page of center Section  
# 7 (Section or subdivision)  
(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)  
being within the boundaries NE 1/4 SW 1/4 of Sec. 7, Twp. 4N, R. 29E,  
W. M., in the county of Umatilla

5. The \_\_\_\_\_ (Canal or pipe line) to be \_\_\_\_\_ miles  
in length, terminating in the \_\_\_\_\_ (Smallest legal subdivision) of Sec. \_\_\_\_\_, Twp. \_\_\_\_\_,  
R. \_\_\_\_\_, W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is May Well

## DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the  
supply when not in use must be described.

8. The development will consist of 1 Well (Give number of wells, tunnels, etc.) having a  
diameter of 8 inches and an estimated depth of 390 feet. It is estimated that 160  
feet of the well will require steel (Kind) casing. Depth to water table is estimated 180 (Feet)

CANAL SYSTEM OR PIPE LINE—

G 4935

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.

(b) At ..... miles from headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.

(c) Length of pipe, ..... ft.; size at intake ..... in.; in size at ..... ft. from intake ..... in.; size at place of use ..... in.; difference in elevation between intake and place of use, ..... ft. Is grade uniform? ..... Estimated capacity, ..... sec. ft.

10. If pumps are to be used, give size and type 10 Horsepower submersible

Give horsepower and type of motor or engine to be used .....

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of area to be irrigated, or place of use 3.5 Ac. in NE 1/4, NE 1/4, SW 1/4, Sec. 7, T4N, R29E  
4.0 Ac. in SE 1/4, SE 1/4, NW 1/4, Sec. 7, T4N, R29E

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
4N	29E	7		7 1/2
Beginning at the point where the North - Southcenter line of section 7 in Township 4 North Range 29 E. W. M. intersects the Southerly right of way line of the Oregon - Washington Railroad and Navigation Company thence South to the Northerly right of way line of the Umatilla County Road known as the Loop Road; thence South-Westerly along said Northerly right of way line a distance of 487 feet; thence North to the Southerly right of way line of the Oregon - Washington Railroad and Navigation Company; thence Northeasterly along said Southerly right of way line to the point of beginning.				

(If more space required, attach separate sheet)

Character of soil Loamy Sand  
Kind of crops raised GRASS

13. To supply the city of .....  
in ..... county, having a present population of .....  
and an estimated population of ..... in 19.....

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$ 5,000.....
- 15. Construction work will begin on or before May 12, 1971.....
- 16. Construction work will be completed on or before October 31, 1971.....
- 17. The water will be completely applied to the proposed use on or before November 30, 1971.....
- 18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. ....

County of Marion, } ss.

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.09 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from and well.

The use to which this water is to be applied is irrigation.

If for irrigation, this appropriation shall be limited to 1/80 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is August 20, 1971.

Actual construction work shall begin on or before December 29, 1972 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1973.

Complete application of the water to the proposed use shall be made on or before October 1, 1974.

WITNESS my hand this 29th day of December, 1971.
