

Permit No. G-5008

APPLICATION FOR A PERMIT

To Appropriate the Ground Waters of the State of Oregon

I, Damascus Water District (Name of applicant) of Route 2, Box 406, Boring, Oregon 97009 (Postoffice Address), county of Clackamas

state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation Election June 7, 1961 Approved by County Commissioners

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Rock Creek (Name of stream) tributary of Clackamas River

2. The amount of water which the applicant intends to apply to beneficial use is cubic feet per second or 170 gallons per minute.

3. The use to which the water is to be applied is Municipal water system for domestic and residential use.

4. The well or other source is located 865 ft. North (N. or S.) and 275 ft. West (E. or W.) from the SE corner of Section 33, T 1 S, R 3 E, W.M. - see accompanying map. (Section or subdivision) (If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary) being within the SE 1/4 SE 1/4 of Sec. 33, Twp. 1 S, R. 3 E, W.M., in the county of Clackamas

5. The pipe line (Canal or pipe line) to be 900 ft. miles in length, terminating in the connecting to the existing water distribution system (Smallest legal subdivision) of Sec. Twp. R. W.M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is Damascus Water District Well No. 3

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of one well (Give number of wells, tunnels, etc.) having a diameter of 8 and 5 inches and an estimated depth of 325 feet. It is estimated that 325 feet of the well will require 8" and 5" steel (Kind) casing. Depth to water table is estimated 205 (Feet)

CANAL SYSTEM OR PIPE LINE—

G 5008

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake, in.; in size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type 20 HP Electric deep well turbine pump; 10 HP electric centrifugal booster pump

Give horsepower and type of motor or engine to be used

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of area to be irrigated, or place of use

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
1S	3 E	32	All	
		33	All	
2S	3 E	2	SW 1/4 SW 1/4	
		3	All	
		4	All	
		5	All	
		6	All except N 1/2 NW 1/4	
		7	All	
		8	All	
		9	N 1/2 and N 1/2 S 1/2	
		10	All	
		15	N 1/2 of N 1/2	
		16	E 1/2 of NE 1/4 & NE 1/4 SE 1/4	
		18	N 1/2 of NE 1/4	

(If more space required, attach separate sheet)

Character of soil

Kind of crops raised

MUNICIPAL SUPPLY—

G 5008

13. To supply the city of Damascus Water District, a domestic water supply corporation
in Clackamas county, having a present population of 2000
and an estimated population of 3000 in 19 75

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$ 7950.00
- 15. Construction work will begin on or before April 1955 (drilled)
- 16. Construction work will be completed on or before August 1971
- 17. The water will be completely applied to the proposed use on or before August 1971
- 18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. Well No. 3 will supply additional water for area covered by well

permits Nos. G-2540 and G - 3577

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before _____, 19_____

WITNESS my hand this _____ day of _____, 19_____

STATE ENGINEER
By _____ ASSISTANT

County of Marion,

ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.38 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from Well #3

The use to which this water is to be applied is municipal

If for irrigation, this appropriation shall be limited to of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is August 18, 1971

Actual construction work shall begin on or before November 27, 1973 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1974

Complete application of the water to the proposed use shall be made on or before October 1, 1975

WITNESS my hand this 27th day of November, 1972
