CERTIFICATE NO. 44816

ASSIGNED. See Misc. Rec. Vol. 6 Page 221

Permit No. G- 5124

APPLICATION FOR A PERMIT

To appropriate the Ground Waters of the State of Oregon

I, Condominiums Northwest  
(Name of applicant)

of 2111 Front St., N.E., Salem, county of Marion  
(Postoffice Address)

state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

21, May 1968, Salem, Oregon

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Deschutes River  
(Name of stream)

tributary of Columbia River

2. The amount of water which the applicant intends to apply to beneficial use is 0.47 cubic feet per second or 210 gallons per minute. Fire protection system periodic checks and maintenance 0.05 cfs

3. The use to which the water is to be applied is Domestic 0.1 cfs, Commercial 0.11 cfs, Irrigation 0.21 cfs

4. The well or other source is located 338<sup>53</sup> ft. S and 290<sup>56</sup> ft. W from the NE corner of the SE 1/4 SW 1/4 Section 22  
(Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the SE 1/4 SW 1/4 of Sec. 22, Twp. 18S R. 11E, W. M., in the county of Deschutes

5. The pipeline to be 0.05 miles in length, terminating in the SE 1/4 SW 1/4 of Sec. 22, Twp. 18S, R. 11E, W. M., the proposed location being shown throughout on the accompanying map.  
(Canal or pipe line)  
(Smallest legal subdivision)

6. The name of the well or other works is Inn at Seventh Mountain Well

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

Not Applicable

8. The development will consist of 1 well having a diameter of 8" inches and an estimated depth of 450 feet. It is estimated that 280 feet of the well will require 1/4" welded steeling. Depth to water table is estimated 245 feet.  
(Kind) (Feet)

0 2151

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.

(b) At ..... miles from headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.

(c) Length of pipe, 300 ft.; size at intake 4" in.; in size at 300 ft. from intake 4 in.; size at place of use 4 in.; difference in elevation between intake and place of use, not applicable. Is grade uniform? Not applicable. Estimated capacity, 0.47 sec. ft.

10. If pumps are to be used, give size and type Well pump, 1 submersable, 140 gpm

Give horsepower and type of motor or engine to be used 20 hp, electric  
208V, 3 ph

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development  
1150' + to Deschutes River, Elev. of ground surface at the well is  
100' + 5' higher than the Deschutes River at its closest point to the well.

12. Location of area to be irrigated, or place of use

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
18S	11E	22	SE 1/4 SW 1/4	8.6
18S	11E	22	SW 1/4 SE 1/4	2.4
18S	11E	22	SE 1/4 SW 1/4	Domestic
18S	11E	22	SW 1/4 SE 1/4	Domestic
18S	11E	22	SE 1/4 SW 1/4	Commercial
18S	11E	22	SE 1/4 SW 1/4	Fire protection system checking & maintenance
18S	11E	22	SW 1/4 SE 1/4	Fire protection system checking & maintenance

(If more space required, attach separate sheet)

Character of soil Course to medium sand  
Kind of crops raised Blue grass and Manhattan Rye (lawn)

MUNICIPAL SUPPLY—

13. To supply the ~~city of~~ Inn at Seventh Mountain, Bend, Oregon  
(a condominium resort motel development)  
in Deschutes county, having a present population of 150  
and an estimated population of 500 in 19 72

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$ 100,000.00 (water system only)
- 15. Construction work will begin on or before Oct. 69
- 16. Construction work will be completed on or before July 71
- 17. The water will be completely applied to the proposed use on or before July 72
- 18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water; made or held by the applicant. Not applicable

CONDOMINIUMS NORTHWEST, INC.

*J. Montgomery*  
(Signature of applicant)

EXECUTIVE VICE PRES.

Remarks: [REDACTED]

In addition to the domestic, commercial and irrigation demands listed above, fire protection for this \$6.5 million project (when completed) will consume 1500 gpm in case of a major fire. The reservoir for the project also serves as a fire water source for the U.S.F.S. Both of these demands will place a maximum load on the well pump, excluding all normal demands.

STATE OF OREGON, }  
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for ~~correction and completion~~

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before ~~November 23~~, 19 70.  
December 30th

WITNESS my hand this ~~23rd~~ day of ~~September~~, 19 70.

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.40 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is domestic, commercial, fire suppression system, and irrigation being 0.10 cfs for domestic, 0.11 cfs for commercial, 0.05 cfs for fire suppression, and 0.14 cfs for irrigation.

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is August 13, 1970

Actual construction work shall begin on or before March 15, 1974 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1974

Complete application of the water to the proposed use shall be made on or before October 1, 1975

WITNESS my hand this 15th day of March, 1973
