STATE ENGINEER
SALEM, OREGON

Permit No. G-516

APPLICATION FOR A PERMIT

To Appropriate the Ground Waters of the State of Oregon

I, Mrs. Lena Dillard

(Name of applicant)

of 165 East Isabella, Lebanon, county of Linn

(Postoffice Address)

state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, **SUBJECT TO EXISTING RIGHTS:**

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Unnamed slough

(Name of stream)

tributary of South Santam River

2. The amount of water which the applicant intends to apply to beneficial use is _____ cubic feet per second or _____ gallons per minute.

3. The use to which the water is to be applied is Irrigation

4. The well or other source is located S. 31° 55' E. 9.98 chains ft. and _____ ft. from the NE corner of DLC 38, T. 12 S., R. 2 W.W.M.

(N. or S.)

(E. or W.)

(Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the NW¹ of NE¹ of Sec. 2, Twp. 12 S., R. 2 W.

W. M. in the county of Linn

5. The main pipe line to be 750 feet _____ miles in length, terminating in the NW¹ of NE¹ and SW¹ of NE¹ of Sec. 2, Twp. 12 S.

(Canal or pipe line)

(Smallest legal subdivision)

R. 2 W. W. M. the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is Dillard No. 1

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of one drilled well having a diameter of 8 inches and an estimated depth of 40 feet. It is estimated that 40 feet of the well will require _____ casing. Depth to water table is estimated 15

(Give number of wells, tunnels, etc.)

(Kind)

(Feet)

CANAL SYSTEM OR PIPE LINE--

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, 750 ft.; size at intake, 3 in.; in size at 750 ft. from intake 3 in.; size at place of use 2 in.; difference in elevation between intake and place of use, 15 ft. Is grade uniform? YES Estimated capacity, 5 sec. ft.

10. If pumps are to be used, give size and type 2" centrifugal

Give horsepower and type of motor or engine to be used 12 H. P. gas engine

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of area to be irrigated, or place of use S. 2, T. 12 S., R. 2 W.

Township N or S.	Range E or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
12 S	2 W.	2	NW $\frac{1}{4}$ of NE $\frac{1}{4}$	7.0
12 S	2 W.	2	SW $\frac{1}{4}$ of NE $\frac{1}{4}$	4.0
				11.0
Beginning at the Northeast corner of the D.L.C. of William B. Gore Not. #2297 and Cla #38 T. 12 S., R. 2W. of the Will. Mer. in Linn County, Oregon; and running thence East 10.00 rods; thence South 61 $\frac{1}{2}$ rods, more or less to the center of a slough thence westerly in the center of said slough to the East line of said D.L.C. #38 at a point 57 $\frac{1}{4}$ rods South of the place of beginning and containing 11.86 acres, more or less all being and being in Linn County, Oregon.				

(If more space required, attach separate sheet)

Character of soil Chehalis silty clay loam

Kind of crops raised Vegetables, berries, forage, and grain

MUNICIPAL SUPPLY--

13. To supply the city of _____
in _____ county, having a present population of _____
and an estimated population of _____ in 19_____

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$ 100.00
- 15. Construction work will begin on or before April 15, 1958
- 16. Construction work will be completed on or before October 1, 1958
- 17. The water will be completely applied to the proposed use on or before October 1, 1959

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. _____

Mrs. Lena Dillard
(Signature of applicant)

Remarks: ~~This same area is covered by Application No. 29392, Permit No. 23539.~~

The reason for this application is that there isn't enough water in the unnamed slough to adequately irrigate the area. Intend to continue irrigating out of slough.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for _____

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before _____, 19_____

WITNESS my hand this _____ day of _____, 19_____

STATE ENGINEER

By _____

ASSISTANT

STATE OF OREGON,

PERMIT

County of Marion,

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.16 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from Dillard Well No. 1

The use to which this water is to be applied is supplemental irrigation

If for irrigation, this appropriation shall be limited to 1/80 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year; provided further that the amount of water allowed herein, together with the amount secured under any other right existing for the same lands shall not exceed the limitation allowed herein,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is April 17, 1957

Actual construction work shall begin on or before April 25, 1958 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1958

Complete application of the water to the proposed use shall be made on or before October 1, 1959

WITNESS my hand this 25th day of April 1957
