SALEM, OREGON

"CERTIFICATE NO. 55463"

Permit No. G-G 5242

APPLICATION FOR A PERMIT

# To appropriate the Ground Waters of the State of Oregon

I, Edward G. and Clara Flesher

(Name of applicant)

of Route 1, Box 178, Jacksonville, county of Jackson

(Postoffice Address)

state of Oregon 97530, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Poormans Creek,

(Name of stream)

tributary of Forest Creek.

2. The amount of water which the applicant intends to apply to beneficial use is 0.04 cubic feet per second or gallons per minute., being 0.02 c.f.s. from each well.

3. The use to which the water is to be applied is irrigation.

#1  
4. The well/or other source is located 1700 ft. N. and 1110 ft. E. from the SW corner of Section 14, being within NW $\frac{1}{4}$  SW $\frac{1}{4}$ , Section 14

(N. or S.)

(E. or W.)

(Section or subdivision)

#2 Well is located 1180 feet N. and 1100 feet E. from the SW corner  
of Section 14

(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the SW $\frac{1}{4}$  SW $\frac{1}{4}$  of Sec. 14, Twp. 38 S., R. 3 W., W. M., in the county of Jackson.

5. The pipeline to be 1000 feet (est)miles in length, terminating in the NE $\frac{1}{4}$  SW $\frac{1}{4}$  SW $\frac{1}{4}$  of Sec. 14, Twp. 38 S., R. 3 W., W. M., the proposed location being shown throughout on the accompanying map.

(Canal or pipe line)

(Smallest legal subdivision)

6. The name of the well or other works is #1 and #2 Flesher Sumps.

## DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of 2 wells (sumps) - (see remarks) having a diameter of 100' sq. ft. and an estimated depth of 20 feet. It is estimated that none feet of the well will require none casing. Depth to water table is estimated 8

(Give number of wells, tunnels, etc.)

(Kind)

(Feet)

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.

(b) At ..... miles from headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.

(c) Length of pipe, 1000 ..... ft.; size at intake 2.0 ..... in.; in size at 350 ..... ft. from intake 1 1/4 ..... in.; size at place of use 1 3/4, & 5/8 in.; difference in elevation between intake and place of use, +35 ..... ft. Is grade uniform? No. Estimated capacity, ..... sec. ft.

10. If pumps are to be used, give size and type #1 - 1 1/2" x 1.0" centrifugal pump... #2 - 1 1/2" x 1 1/4" centrifugal pump.

Give horsepower and type of motor or engine to be used #1 - 1.0 H.P. electric motor and #2 - 1.5 H.P. electric motor.

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

Both wells (sumps) are located approximately 200 feet east of Poormans Creek and the ground surface at wells is approximately 10 feet higher in elevation.

12. Location of area to be irrigated, or place of use

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
38 S.	3 W.	14	E 1/2 SE 1/4 NW 1/4 SW 1/4	2.1 acres
			E 1/2 NE 1/4 SW 1/4 SW 1/4	0.9 acre
				3.0 ✓

(If more space required, attach separate sheet)

Character of soil ..... clay loam.

Kind of crops raised ..... garden, lawn, berries and pasture.

MUNICIPAL SUPPLY—

13. To supply the city of .....  
in ..... county, having a present population of .....  
and an estimated population of ..... in 19.....

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

14. Estimated cost of proposed works, \$1000.00.....

15. Construction work will begin on or before one year from date of priority.....

16. Construction work will be completed on or before October 1, 1973.....

17. The water will be completely applied to the proposed use on or before October 1, 1974.....

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. none.....

X Lara Flecker  
Ed Flecker  
(Signature of applicant)

Remarks: These two wells (sumps) are old hydraulic mining holes which have been cleaned with a dragline - they are approximately 100 feet square and 20 feet in depth.

STATE OF OREGON, }  
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for .....

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before ....., 19.....

WITNESS my hand this ..... day of ....., 19.....

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed .....0.04..... cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from 2 sump wells being 0.02 cfs from each well

The use to which this water is to be applied is .....irrigation.....

If for irrigation, this appropriation shall be limited to .....1/80..... of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 22 acre feet per acre for each acre irrigated during the irrigation season of each year; and shall be further limited to appropriation of water only to the extent that it does not impair or substantially interfere with existing surface water rights of others,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is .....May 17, 1971.....

Actual construction work shall begin on or before .....October 16, 1975..... and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1976.....

Complete application of the water to the proposed use shall be made on or before October 1, 1977.

WITNESS my hand this .....16th... day of .....October....., 1974.
