PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 17.2 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from 4 wells

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year; and the right allowed herein shall not authorize appropriation from the aquifer supplying these wells within the Butter Creek Critical Ground Water area as finally determined and the permittee shall install and maintain a totalizing meter on each well prior to making the appropriation, provided further that if the quantity of water herein authorized can be obtained from less than four wells the other wells will not be drilled.

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is May 28, 1974

Actual construction work shall begin on or before January 20, 1976 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1976 Extended to Oct. 1979 Extended to Oct. 1978

Complete application of the water to the proposed use shall be made on or before October 1, 1977 Extended to Oct. 1979 Extended to Oct. 1978
