Permit No. G-531

APPLICATION FOR A PERMIT

To Appropriate the Ground Waters of the State of Oregon

I, NETTIE CHRISTENSEN (Name of applicant)
of MILTON-FREEWATER (Postoffice Address), county of UMATILLA,
state of OREGON, do hereby make application for a permit to appropriate the
following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

Not all information is given & Christ, R. Walla Walla, Wash.

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated MUD CREEK (Name of stream) tributary of WALLAWALLA RIVER

2. The amount of water which the applicant intends to apply to beneficial use is _____ cubic feet per second or 500 gallons per minute.

3. The use to which the water is to be applied is IRRIGATION

4. The well or other source is located 690 ft. N and 1100 ft. W from the S. E corner of S. 23, SW 1/4 SE 1/4 of Sec. 18 - T. 6 N., R. 35 W. (Section or subdivision)
(If preferable, give distance and bearing to section corner)

(If there is more than one well each must be described. Use separate sheet if necessary)
being within the SW 1/4 SE 1/4 of Sec. 18, Twp. 6 N., R. 35 E.,
W. M. in the county of UMATILLA

5. The _____ (Canal or pipe line) to be _____ miles
in length, terminating in the _____ (Smallest legal subdivision) of Sec. _____, Twp. _____
R. _____ W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is _____

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

If not artesian, necessary equipment will be installed to run well when not in use.

8. The development will consist of 1 well (Give number of wells, tunnels, etc.) having a diameter of 12 inches and an estimated depth of 300 feet. It is estimated that 82 feet of the well will require iron casing. Depth to water table is estimated 100 to 300 (Feet)

MUNICIPAL SUPPLY—

13. To supply the city of

in county, having a present population of

and an estimated population of in 19.....

14. Estimated cost of proposed works, \$ 3000⁰⁰.....

15. Construction work will begin on or before shortly after Permit is allowed

16. Construction work will be completed on or before Jan. 1 - 1958.....

17. The water will be completely applied to the proposed use on or before Jan. 1 - 1958.....

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant.

adjudicated water right from spring branch of Mud Creek.

Lottie Christenson
(Signature of applicant)

Remarks: Part of this land has only a fall and spring water right from Hudson Bay ditch company. Some has adjudicated right from spring branch of Mud Creek. During the months of July, August and September there isn't enough water for irrigation in other places on the same creek due to priority rights and the flow isn't sufficient to meet the demand for proper irrigation on a surveyed far. For that reason I am applying for a permit to drill a well to supplement this supply during the short season from the spring Hudson Bay ditch water.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before, 19

WITNESS my hand this day of, 19

STATE OF OREGON,

PERMIT

County of Marion,

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 1.11 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is irrigation and supplemental irrigation

If for irrigation, this appropriation shall be limited to 1/80 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year; provided further that the amount of water allowed herein, together with the amount secured under any other right existing for the same lands shall not exceed the limitation allowed herein, and shall be still further limited to a diversion of not to exceed 1.11 c.f.s.,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is April 8, 1957

Actual construction work shall begin on or before May 16, 1958 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1958

Complete application of the water to the proposed use shall be made on or before October 1, 1959

WITNESS my hand this 16th day of May, 1957.
