APPLICATION FOR A PERMIT

CERTIFICATE NO. 47442

To Appropriate the Ground Waters of the State of Oregon

I, Sunset Grove Golf Club Incorporated
(Name of applicant)
of Rte. 2 Box 406, Forest Grove, county of Washington,
(Postoffice Address)
state of Oregon, 97116, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation
September 24, 1969 Rt. 2 Box 406 Forest Grove, Oregon

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Drainage Ditch No. 7
(Name of stream)
tributary of Dairy Creek

2. The amount of water which the applicant intends to apply to beneficial use is 0.111 cubic feet per second or 75 gallons per minute from each well
~~0.22~~ 0.22 cubic feet per second from each well

3. The use to which the water is to be applied is Irrigation of Golf Course

4. The well or other source is located No. 1 ⁸³⁰ 700 N and 4320 ⁴⁰⁶⁰ 4550 ft. E from the S W corner of Section 18
(N. or S.) (E. or W.)
(Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)
being within the SE 1/4 SE 1/4 & SW 1/4 of Sec. 18, Twp. 1 N, R. 3 W, W. M., in the county of Washington

5. The Same as Application No. 40466 to be miles in length, terminating in the of Sec. , Twp. , R. , W. M., the proposed location being shown throughout on the accompanying map.
(Canal or pipe line) (Smallest legal subdivision)

6. The name of the well or other works is

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of Two having a diameter of 2.6 inches and an estimated depth of 360 feet. It is estimated that feet of the well will require casing. Depth to water table is estimated 25
(Kind) (Feet)

See well report well no 1 N / 3 W 18 R 1 & 2

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ^{Same as Application 10166} ft., size at intake in.; in size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Yes Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type See final proof survey

Give horsepower and type of motor or engine to be used See final proof survey

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

No1 660' 15'
 NO.2 495 15'

12. Location of area to be irrigated, or place of use

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
Same as application No. 10166 as shown on final proof survey.

STATE OF OREGON,

PERMIT

County of Marion,

ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.32 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from 2 wells being 0.16 cfs from each well

The use to which this water is to be applied is supplemental irrigation

If for irrigation, this appropriation shall be limited to 1/80 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year; provided further that the right allowed herein shall be limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is April 29, 1971

Actual construction work shall begin on or before February 21, 1976 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1976

Complete application of the water to the proposed use shall be made on or before October 1, 1977.

WITNESS my hand this 21st day of February, 1975
