

Permit No. G- G 5399

APPLICATION FOR A PERMIT

To appropriate the Ground Waters of the State of Oregon

I, Wistar M. Jr and Charlotte M. Adair
(Name of applicant)

of P.O. Box 133d, Baker, county of Baker
(Postoffice Address)

state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Pine Cr.
(Name of stream)

tributary of Fountain R.

2. The amount of water which the applicant intends to apply to beneficial use is _____ cubic feet per second or 350 gallons per minute.

3. The use to which the water is to be applied is Irrigation of 42.2 ± acres of cropland.

4. The ^{pit}well or other source is located 660 ft. N and 1900 ft. W from the C.N. corner of Sec. 29
(N. or S.) (E. or W.)
(Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the SW 1/4 NW 1/4 of Sec. 29, Twp. E5, R. 39E, W. M., in the county of Baker

5. The Portable Pipelines to be 5/8 miles \pm in length, terminating in the SW 1/4, NW 1/4 and NE 1/4, SW 1/4 of Sec. 29, Twp. E5, R. 39E, W. M., the proposed location being shown throughout on the accompanying map.
(Canal or pipe line)
(Smallest legal subdivision)

6. The name of the well or other works is Adair Pit

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of 1 pit having a diameter of 50 x 200 Ft inches and an estimated depth of 20-30 feet. It is estimated that _____ feet of the well will require _____ casing. Depth to water table is estimated 10' ±
(Kind) (Feet)
Variable

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake, in.; in size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type *3x2 1/2 Centrifugal*

Give horsepower and type of motor or engine to be used *15 HP 220 V. 3 Phase Elec.*

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

Pit approx 3/16 mi. from Pine Cr. Elev. approx same
Pine Cr. is dry except for short period of flow in Spring.

12. Location of area to be irrigated, or place of use

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
ES	39E	29	SW 1/4, NW 1/4	29.8 <i>anna</i>
ES	39E	29	NW 1/4, SW 1/4	2.4 Primary
8S	39E	29	SW 1/4, NW 1/4	11.3 Primary
8S	39E	29	SW 1/4, NW 1/4	28.5 Suppl
				<u>42.2</u> <i>Ac Total</i>

(if more space required, attach separate sheet)

Character of soil *Gravelly loam (Goodrich Gravel)*

Kind of crops raised *Alfalfa, Grass*

MUNICIPAL SUPPLY—

13. To supply the city of _____
in _____ county, having a present population of _____
and an estimated population of _____ in 19_____

14. Estimated cost of proposed works, \$ 2500

15. Construction work will begin on or before Begin - Contin - Deepening Pit

16. Construction work will be completed on or before May 1, 1974

17. The water will be completely applied to the proposed use on or before Oct. 1, 1973

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. Surface Water Right for 28.5 acres from Pine Co. 1896 priority, certif. 4018

Ch. M. Adams, Jr. Charlotte M. Adams
(Signature of applicant)

Remarks: Present surface water right supplies only an early season irrigation on part of our land. Expect to develop adequate ground water for season long irrigation of all our land from pit. Will use portable mainline and sprinkler laterals to cover acreage. Have 1526' - 4" main, 34 pcs. 3" x 40' lateral and 8 pcs. 2" x 40' lateral, and sprinklers. Will use and maintain surface water right.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for _____ correction and completion

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before August 3rd, 19 71.

WITNESS my hand this 3rd day of June, 19 71.

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.53 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a pit well

The use to which this water is to be applied is irrigation and supplemental irrigation

If for irrigation, this appropriation shall be limited to 1/80 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year; provided further that the right allowed herein shall be limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein, and shall be further limited to appropriation of water only to the extent that it does not impair or substantially interfere with existing surface water rights of others,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The priority date of this permit is May 6, 1971

Actual construction work shall begin on or before February 21, 1976 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1976

Complete application of the water to the proposed use shall be made on or before October 1, 1977

WITNESS my hand this 21st day of February, 1975
