APPLICATION FOR A PERMIT

CERTIFICATE NO. 46352

To appropriate the Ground Waters of the State of Oregon

I, William E. Dial Jr. (Name of applicant)
of Rt. 2 Box 303 Milton-Freewater, Ore. (Postoffice Address), county of Umatilla,
state of Oregon, do hereby make application for a permit to appropriate the
following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is
situated Johnson Creek (Name of stream)

tributary of

2. The amount of water which the applicant intends to apply to beneficial use is _____ cubic
feet per second or 100 gallons per minute.

3. The use to which the water is to be applied is Irrigation

4. The well or other source is located 56 ft. S (N. or S.) and 108 ft. W (E. or W.) from the N.E.
corner of the SW 1/4 of the NE 1/4 of Sec. 29 Township 6 N. Range 35 E.W.M. (Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the S.W. 1/4 of the N.E. 1/4 of Sec. 29, Twp. 6 N., R. 35 E.,
W. M., in the county of Umatilla

5. The _____ (Canal or pipe line) to be _____ miles
in length, terminating in the _____ (Smallest legal subdivision) of Sec. _____, Twp. _____,

R. _____, W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is _____

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the
supply when not in use must be described.

8. The development will consist of One Well (Give number of wells, tunnels, etc.) having a
diameter of 8 inches and an estimated depth of 88 feet. It is estimated that 57 1/2
feet of the well will require Welded Steel (Kind) casing. Depth to water table is estimated 45 (Feet)

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake in.; in size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type Contrifugal 2" for Irrigation and small jet pump for domestic use

Give horsepower and type of motor or engine to be used 3 H.P. Electric

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of area to be irrigated, or place of use

| Township N. or S. | Range E. or W. of Willamette Meridian | Section | Forty-acre Tract | Number Acres To Be Irrigated |
|-------------------|---------------------------------------|---------|------------------|------------------------------|
| 6 N. | 35 E. | 29 | S.W 1/4 of N.E. | 4.45 |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |

(If more space required, attach separate sheet)

Character of soil Rocky

Kind of crops raised Grass, Alfalfa

MUNICIPAL SUPPLY—

13. To supply the city of _____
in _____ county, having a present population of _____
and an estimated population of _____ in 19_____

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$ 800.00
- 15. Construction work will begin on or before March 15, 61
- 16. Construction work will be completed on or before March 15, 61
- 17. The water will be completely applied to the proposed use on or before March 15, 61

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. Permit No. G-777 For a well not presently used
Also a permit (number not known) for surface water in winter months

William E. Dail Jr.
(Signature of applicant)

Remarks: The well described in this application was dug in
1961 and has been used since that time. I am enclosing a copy of the
original driller report as transferred to me by Orvis Johnson a previous
owner of this tract and under whose name the well was drilled. Since
the original well no. G-777 duplicates the irrigation area requested
must I pay additional recording fees.

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.06 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/40th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 4 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is May 24, 1971

Actual construction work shall begin on or before February 21, 1976 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1976.

Complete application of the water to the proposed use shall be made on or before October 1, 1977.

WITNESS my hand this 21st day of February, 1975.

Chris I. Wheeler
