PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same,

SUBJECT TO EXISTING RIGHTS and the following limitations and conditions: The right herein granted is smited to the amount of water which can be applied to beneficial use or source of appropriation, or its equivalent in case of rotation with other water users, from well..... The use to which this water is to be applied isirrigation.... or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed22... acre feet per acre for each acre irrigated during the irrigation season of each year; and is subject to all the terms and conditions of an order of the State Engineer entered May 17, 1974, including its consideration as item 81 and added to paragraph 9 of the order. and shall be subject to such reasonable rotation system as may be ordered by the proper state officer. The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water. The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times. The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn. The priority date of this permit is ______ May 5, 1971 Actual construction work shall begin on or before April 10, 1976 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1976...... Complete application of the water to the proposed use shall be made on or before October 1, 19.77... WITNESS my hand this 10th day of April STATE ENGINEER This instrument was firm received in the office of the State Engineer at Salem, Oregon APPROPRIATE THE GROUND WATERS OF THE STATE Application No. G-550 Ground Water Permits on page CHRIS L.
