Permit No. G- G 5553

APPLICATION FOR A PERMIT

CERTIFICATE NO. 45355

To Appropriate the Ground Waters of the State of Oregon

I, Harold A. Spencer (Name of applicant)
1250 Dewey
of Baker, Oregon (Postoffice Address), county of Baker
state of Oregon 97814, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Powder River (Name of stream)

tributary of Snake River

2. The amount of water which the applicant intends to apply to beneficial use is one cubic feet per second or minimum gallons per minute.

3. The use to which the water is to be applied is Primary & Supplemental Irrigation

4. The well or other source is located _____ ft. _____ and _____ ft. _____ from the _____ corner of _____ (N. or S.) (E. or W.)

(Section or subdivision)

North 14 degrees and 20 min. East 690 Ft. more or less from the (If preferable, give distance and bearing to section corner)

intersect on of existing section lines intersecting at the SW corner of Section 18, Twp. 7N, R. 42E, W.M. (If there is more than one well, each must be described. Use separate sheet if necessary)

being within the SW 1/4 of the SW 1/4 of Sec. 18, Twp. 7N, R. 42E

W. M., in the county of Baker

5. The irrigation ditches (Canal or pipe line) to be as needed _____ miles

in length, terminating in the East _____ of Sec. 18, Twp. 7N, R. 42E, W. M., the proposed location being shown throughout on the accompanying map.

(Smallest legal subdivision)

6. The name of the well or other works is K. Spencer

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of one well (Give number of wells, tunnels, etc.) having a

diameter of 14" inches and an estimated depth of 325 feet. It is estimated that

feet of the well will require _____ casing. Depth to water table is estimated _____ (Kind) (Feet)

Plus 8" well lower to a possible depth of 425 Ft.

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake in.; in size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type 450 gpm minimum--centrifical or Jet type

Give horsepower and type of motor or engine to be used 40 H/P Deep well pump 100'

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of area to be irrigated, or place of use

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
8 South	42E	18	S/W - S/W	34
			N/W - S/W	27
			S/W - N/W	5
			S/E - N/W	20
			S/W - N/E	10
			N/W - S/E	20
			S/W - S/E	20
			S/E - S/W	40
			N/E - S/W	40
			SW - SW	30
NW - SW	130			
				232

Primary

(If more space required, attach separate sheet)

Character of soil Deep Silt Loam

Kind of crops raised Alfalfa, Grain

MUNICIPAL SUPPLY—

13. To supply the city of _____
in _____ county, having a present population of _____
and an estimated population of _____ in 19_____

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$ 10,000.00
- 15. Construction work will begin on or before January 1951
- 16. Construction work will be completed on or before July 1 1952
- 17. The water will be completely applied to the proposed use on or before August 1 1966
- 18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. Cont 4347, 4410, 12310 + ~~4411, 4412, 4413, 4414~~

Powder River.

Thomas E. Shook
(Signature of applicant)

Remarks: Well has been in use several years and is operated
by a 40 H.P. Deep well pump, bowls set about 190'. Produces about
400 - 450 gpm is used with sprinkler system.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for _____ correction and completion

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before July 14, 1972.

WITNESS my hand this 15th day of May, 1972.

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 1.0 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from Spencer Well

The use to which this water is to be applied is irrigation and supplemental irrigation

If for irrigation, this appropriation shall be limited to 1/80 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year; provided further that the right allowed herein shall be limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein.

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is April 19, 1972

Actual construction work shall begin on or before March 21, 1976 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1976

Complete application of the water to the proposed use shall be made on or before October 1, 1977

WITNESS my hand this 21st day of March, 1975.
