Permit No. G-5578

CERTIFICATE NO. 44689

APPLICATION FOR A PERMIT

To appropriate the Ground Waters of the State of Oregon

I, Aden A Chambers (Name of applicant)
of Route 2 Box 129 Albany, Ore., county of Linn (Postoffice Address),
state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Crooks creek (Name of stream) tributary of Willamette River

2. The amount of water which the applicant intends to apply to beneficial use is 500 cubic feet per second or 500 gallons per minute.

3. The use to which the water is to be applied is Irrigation of Crops

4. The well or other source is located ft. and ft. from the corner of (N. or S.) (E. or W.) (Section or subdivision) S 71 1/2° W 26.7 chains from the most N.W. N.W. Cor. D1C 38 (if preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary) being within the S.E. 1/4 of N.E. 1/4 of Sec. 11, Twp. 10 S, R. 4 W, W. M., in the county of Linn

5. The (Canal or pipe line) to be 1900 ft miles in length, terminating in the S.W. 1/4 of MW 1/4 of Sec. 12, Twp. 10 S, R. 4 W, W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is ~~the~~ well #5 (six)

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of one well (Give number of wells, tunnels, etc.) having a diameter of 12 inches and an estimated depth of 30 feet. It is estimated that 30 feet of the well will require Steel (Kind) casing. Depth to water table is estimated 5' 7" (Feet)

MUNICIPAL SUPPLY—

13. To supply the city of _____
in _____ county, having a present population of _____
and an estimated population of _____ in 19_____

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$ 360.00
- 15. Construction work will begin on or before May 11, 1972
- 16. Construction work will be completed on or before June 1972
- 17. The water will be completely applied to the proposed use on or before June 1972

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. _____

Aden A. Chambers
(Signature of applicant)

Remarks: I hereby authorize cancellation of Certificate GR 610. Also Certificate No. GR 613 (well #4). Well casing has been pulled. Therefore well no longer exists.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for _____ correction and completion

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.41 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from Well #6

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is July 3, 1972

Actual construction work shall begin on or before March 21, 1976 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1976

Complete application of the water to the proposed use shall be made on or before October 1, 1977

WITNESS my hand this 21st day of March, 1975
