8. The development ~~will~~ consist of one well having a
(Give number of wells, tunnels, etc.)
diameter of 6 inches and an estimated depth of 100 feet. It is estimated that 100
feet of the well will require steel casing. Depth to water table is estimated 15 feet
(Kind) (Feet)

MUNICIPAL SUPPLY—

13. To supply the city of _____
in _____ county, having a present population of _____
and an estimated population of _____ in 19_____

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- X 14. Estimated cost of proposed works, \$ 1000
- X 15. Construction work will begin on or before completed (existing well)
- X 16. Construction work will be completed on or before 11
- X 17. The water will be completely applied to the proposed use on or before June 1, 1973

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. None

John F. Carliss
(Signature of applicant)

Remarks: Well was drilled before 1955 and has been used for domestic use or strawberry irrigation (10ac) for all years since drilling. The well is currently used to irrigate pasture and young filbert trees and for domestic use. I am applying for appropriation to record the well and assure continued use for irrigation and domestic purposes.

John F. Carliss

Certain information was derived from previous owner since well driller is deceased.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for correction and completion

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before July 20, 1973.

WITNESS my hand this 21st day of May, 1973.

County of Marion, } ss.

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.125 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is April 9, 1973

Actual construction work shall begin on or before July 17, 1976 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1976

Complete application of the water to the proposed use shall be made on or before October 1, 1977

WITNESS my hand this 17th day of July, 1975
