of Box 85, Glendale, county of Douglas,
(Postoffice Address)
state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Tunnel Creek
(Name of stream)

tributary of Cow Creek

2. The amount of water which the applicant intends to apply to beneficial use is _____ cubic feet per second or 25 gallons per minute.

3. The use to which the water is to be applied is Supplemental irrigation with any deficiency from Tunnel Creek to come from well.

4. The well or other source is located 1,000 ft. N and 240 ft. W from the SE corner of Section 4
(N. or S.) (E. or W.) (Section or subdivision)

Tunnel Creek P.O.D. 1030' N., 320' E. from SE Cor. Sec. 4
(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the SE 1/4 SE 1/4 of Sec. 4, Twp. 33S., R. 6W., W. M., in the county of Douglas

5. The pipeline to be 650 feet _____ miles
(Canal or pipe line)
in length, terminating in the SE 1/4 SE 1/4 of Sec. 4, Twp. 33S.,
(Smallest legal subdivision)

R. 6W., W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is Ed Harris Well

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of 1 well having a
(Give number of wells, tunnels, etc.)
diameter of 6 inches and an estimated depth of 105 feet. It is estimated that 60
feet of the well will require steel casing. Depth to water table is estimated 100
(Kind) (Feet)

MUNICIPAL SUPPLY—

13. To supply the city of
in county, having a present population of
and an estimated population of in 19.....

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$ 2,500.
- 15. Construction work will begin on or before Completed
- 16. Construction work will be completed on or before completed
- 17. The water will be completely applied to the proposed use on or before completed

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. A 51274

Edward Morris
(Signature of applicant)

STATE ENGINEER
SALEM, OREGON

CHRIS L. WHEELER
STATE ENGINEER

By *T. Shook*
THOMAS E. Shook ASSISTANT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.03 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from Ed Horns Well

The use to which this water is to be applied is supplemental irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 acre feet per acre for each acre irrigated during the irrigation season of each year; provided further that the right allowed herein shall be limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is February 16, 1973

Actual construction work shall begin on or before July 17, 1976 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1976

Complete application of the water to the proposed use shall be made on or before October 1, 1977

WITNESS my hand this 17th day of July, 1975
