

Permit No. G-5812

CERTIFICATE NO. 51295

APPLICATION FOR A PERMIT

To appropriate the Ground Waters of the State of Oregon

I, Douglas E Holman (Name of applicant) of 13369 SE Kanne Rd, Portland (Postoffice Address), county of Clackamas, state of Ore 97236, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Butter Cr of Umatilla (Name of stream)

tributary of

Remarks

2. The amount of water which the applicant intends to apply to beneficial use is 7.7 cubic feet per second or gallons per minute.

3. The use to which the water is to be applied is irrigation

4. The well or other source is located ft. and ft. from the corner of 1400' S & 1200' E of NW cor Sec 34 within SW NW (Section or subdivision)

1200' N & 1200' E of SW cor Sec 34 within SW SW (If preferable, give distance and bearing to section corner)

30' N & 1950' E of SW cor Sec 34 within SE SW

2600' N & 1400' W of SE cor Sec 34 within NW SE being within the of Sec. Twp. 3 N, R. 28 E

W. M., in the county of Umatilla

5. The circle & wheel/move sprinkler (Canal or pipe line) to be miles in length, terminating in the of Sec. Twp. R.

W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is .

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of 4 wells (Give number of wells, tunnels, etc.) having a diameter of 16 inches and an estimated depth of 1250 feet. It is estimated that 120 feet of the well will require (Case to basalt) std casing. Depth to water table is estimated (Feet)

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake in.; in size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type *Not established as yet*

Give horsepower and type of motor or engine to be used *as above*

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of area to be irrigated, or place of use

MUNICIPAL SUPPLY—

13. To supply the city of _____
in _____ county, having a present population of _____
and an estimated population of _____ in 19_____

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$.....
- 15. Construction work will begin on or before 1 yr. after permit issued
- 16. Construction work will be completed on or before Oct 74
- 17. The water will be completely applied to the proposed use on or before Oct 75

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. _____

Douglas E. Holm
(Signature of applicant)

Remarks: _____

Balance of data regarding well construction & pumps will be submitted when it is determined that a permit can be issued. Division of quantity will be made then.

Quantity #2 1.94 CFS per well.

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 7.64 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from 4 wells.

The use to which this water is to be applied is irrigation being 1.91 c.f.s. from each well.

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is June 12, 1972

Actual construction work shall begin on or before September 4, 1976 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1976

Complete application of the water to the proposed use shall be made on or before October 1, 1977

WITNESS my hand this 4th day of September, 1975.
