Permit No. G-.....

APPLICATION FOR A PERMIT

To appropriate the Ground Waters of the State of Oregon

I, PAUL M. BROWN (Name of applicant)

of Rt. 2, Box 268, Aurora, county of Clackamas, state of Oregon 97002, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Willamette River (Name of stream)

tributary of Columbia River

2. The amount of water which the applicant intends to apply to beneficial use is cubic feet per second or 300 gallons per minute.

3. The use to which the water is to be applied is domestic including yard irrigation

\* See auxiliary well location in Remarks following Item #18

4. The well or other source is located 90 ft. North and 1172 ft. East from the Southwest corner of the Northwest quarter of Section 25, Township 3 South, Range 1 West of the Willamette Meridian. (If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary) being within the Southwest quarter of the Northwest quarter of Sec. 25, Twp. 3 South, R. 1 West, W. M., in the county of Clackamas

5. The pipe line to be miles in length, terminating in the Southwest one-quarter of Sec. 25, Twp. 3 South, R. 1 West, W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is Prairie View Estates No. 1

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of one well having a diameter of 12 inches and an estimated depth of 120 feet. It is estimated that 120 feet of the well will require steel casing. Depth to water table is estimated 27 feet.

\*\*The auxiliary well has a diameter of 12" from 0 to 10 feet and 10" diameter from 10 to 80 feet. The well casing is welded steel pipe. Depth to water table is 22 feet.

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.

(b) At ..... miles from headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.

(c) Length of pipe, ..... ft.; size at intake, ..... in.; in size at ..... ft. from intake ..... in.; size at place of use ..... in.; difference in elevation between intake and place of use, ..... ft. Is grade uniform? ..... Estimated capacity, ..... sec. ft.

10. If pumps are to be used, give size and type Gould bowl assembly 6 JLO  
vertical turbine pump

Give horsepower and type of motor or engine to be used 15 horsepower, 3 phase,  
60 cycle, 240 volt, 3600 rpm, electrical motor

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of area to be irrigated, or place of use

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
3 South	1 West	25	NW $\frac{1}{4}$ , SW $\frac{1}{4}$	37
3 South	1 West	25	SW $\frac{1}{4}$ , NW $\frac{1}{4}$	8
3 South	1 West	25	SE $\frac{1}{4}$ , NW $\frac{1}{4}$	17.9

(If more space required, attach separate sheet)

Character of soil Willamette Series, Silt Loam

Kind of crops raised

MUNICIPAL SUPPLY—

13. To supply the city of .....  
in ..... county, having a present population of .....  
and an estimated population of ..... in 19.....

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$40,000.00.....
- 15. Construction work will begin on or before November, 1973.....
- 16. Construction work will be completed on or before November, 1975.....
- 17. The water will be completely applied to the proposed use on or before November, 1975.....
- 18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. see remarks below.....

x *Paul M. Brown*  
(Signature of applicant)

Remarks: The development of the well is to be used as a prime source to be supplemented with existing water supply permit G-4262  
The water to be used for domestic use for 61 single-family residential sites having an estimated population of 240 persons. The auxiliary well (Permit G-4262) will be used as an alternate source during periods when the primary well is out of service. This will require an appropriation of 300 gpm.

\*The auxiliary well is located 48 feet South and 171 feet East from the Southwest corner of the Northwest quarter of Section 25, Township 3 South, Range 1 West of the Willamette Meridian, being within the Northwest quarter of the Southwest quarter of Section 25, Township 3 South, Range 1 West of the Willamette Meridian, in the County of Clackamas.....

STATE OF OREGON, }  
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for ..... correction and completion

In order to retain its priority, this application must be returned to the State Engineer, with correc-

tions on or before April 25, 1974

WITNESS my hand this 25th day of February, 1974.

STATE OF OREGON,

PERMIT

County of Marion,

ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.67 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from Prairie View Estates Well #1 with deficiency from auxiliary well constructed under Permit No. G-4262.

The use to which this water is to be applied is for domestic use for 61 families, including the irrigation of lawn and garden not to exceed 1/2 acre in area

If for irrigation, this appropriation shall be limited to of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is December 6, 1973

Actual construction work shall begin on or before November 3, 1976 and shall

thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1977

Complete application of the water to the proposed use shall be made on or before October 1, 1978

WITNESS my hand this 3rd day of November, 1975

Water Resources Director STATE ENGINEER
