

APPLICATION FOR A PERMIT

To Appropriate the Ground Waters of the State of Oregon

I, Continental Grain Co. (Name of applicant) of Lewis Building, Portland (Postoffice Address), county of Multnomah

state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

Delaware

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Willamette River (Name of stream)

tributary of

2. The amount of water which the applicant intends to apply to beneficial use is cubic feet per second or 1300 gallons per minute.

3. The use to which the water is to be applied is Washing Grain at Grain Elevators

4. The well or other source is located 1,090 ft. W (N or S) and 320 ft. S (E or W) from the Center corner of Section 21 (Section or subdivision)

See attached drawing showing location of well. (If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the ~~the~~ NE 1/4 SW 1/4 of Sec. 21, Twp. 1N, R. 1E W. M. in the county of Multnomah

5. The (Canal or pipe line) to be miles in length, terminating in the (Smallest legal subdivision) of Sec. , Twp. R. W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of One well (Give number of wells, tunnels, etc.) having a diameter of 16 inches and an estimated depth of 200 feet. It is estimated that 200 feet of the well will require Standard weight casing. Depth to water table is estimated 150 max. (Kind) (Feet)

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.

(b) At ..... miles from headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.

(c) Length of pipe, ..... ft.; size at intake, ..... in.; in size at ..... ft. from intake ..... in.; size at place of use ..... in.; difference in elevation between intake and place of use, ..... ft. Is grade uniform? ..... Estimated capacity, ..... sec. ft.

10. If pumps are to be used, give size and type ..... 10" Deep Well Turbine

Give horsepower and type of motor or engine to be used ..... 50 HP Electric Motor

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

Approx. 300 ft. from the Willamette River. Ground at well site is about 32 Ft. above the mean water level of the river.

12. Location of area to be irrigated, or place of use ..... Adjacent to the east end of Swan Island.

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
1 N	1 E	21	NE 1/4 SW 1/4	Industrial

(If more space required, attach separate sheet)

Character of soil .....

Kind of crops raised .....

MUNICIPAL SUPPLY—

13. To supply the city of .....  
in ..... county, having a present population of .....  
and an estimated population of ..... in 19.....

14. Estimated cost of proposed works, \$ 10,000.00

15. Construction work will begin on or before July 15th. 1957

16. Construction work will be completed on or before Sept. 15th. 1959

17. The water will be completely applied to the proposed use on or before Sept. 15th. 1961

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. This proposed well will supplement the city water supply now being used for washing grain.

*Permittal Grants*

G. E. KILBURN

Remarks: We would appreciate your earliest consideration of this application. If we can start drilling the well before the thirty days, we will do so.

V. P.

Thank you.

STATE OF OREGON, }  
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for .....

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before ....., 19.....

WITNESS my hand this ..... day of ....., 19.....

STATE ENGINEER

STATE OF OREGON, }  
County of Marion, }

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 2.90 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is Industrial

If for irrigation, this appropriation shall be limited to — of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed — acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is June 20, 1957

Actual construction work shall begin on or before July 2, 1958 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1958

Complete application of the water to the proposed use shall be made on or before October 1, 1959

WITNESS my hand this 2nd day of July, 1957
