APPLICATION FOR A PERMIT

To Appropriate the Ground Waters of the State of Oregon

I, Chester J. & Rosalie Prior (husband & wife) & Arthur W. & Patsy Lee Prior (husb. & w.)
(Name of applicant)

of Route 1 - Box 95B - Hermiston, county of Umatilla
(Postoffice Address)

state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Umatilla River
(Name of stream)

..... tributary of Columbia River

2. The amount of water which the applicant intends to apply to beneficial use is 5.58 cubic feet per second or 2500 gallons per minute.

3. The use to which the water is to be applied is Irrigation

4. The well or other source is located 1600 ft. N and 50 ft. W from the SE corner of Section 30
(N. or S.) (E. or W.)
(Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the N SE 1/4 SE 1/4 of Sec. 30, Twp. 3 N, R. 29 E, W. M., in the county of Umatilla

5. The Pipeline (see attachment 1) to be miles in length, terminating in the SE 1/4 of Sec. 30, Twp. 3 N, R. 29 E, W. M., the proposed location being shown throughout on the accompanying map.
(Canal or pipe line) (Smallest legal subdivision)

6. The name of the well or other works is Well #1

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of one well having a diameter of 16" inches and an estimated depth of 1000 feet. It is estimated that 100 feet of the well will require standard casing. Depth to water table is estimated 200 feet.
(Kind) (Feet)

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, see att. #1 ft.; size at intake in.; in size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type deep well turbine.....

Give horsepower and type of motor or engine to be used 300 h.p. electrically driven.....

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of area to be irrigated, or place of use Sections 29 & 30, T3N, R29E, W.M.....

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
3 N	29 E	29	NE SW	40
			NW SW	40
			SW SW	40
			SE SW	40
		30	NE SE	40
			NW SE	40
			SW SE	40
			SE SE	40

(If more space required, attach separate sheet)

Character of soil sandy loam.....

Kind of crops raised All row crops: hay, grain, etc.....

MUNICIPAL SUPPLY—

13. To supply the city of
in county, having a present population of
and an estimated population of in 19.....

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$ 110,000
- 15. Construction work will begin on or before November 1, 1974
- 16. Construction work will be completed on or before December 1, 1975
- 17. The water will be completely applied to the proposed use on or before October 1, 1976

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. See remarks

(Signature of applicant)
 Rosalind P. Poirer
 Patsy Lee Poirer
 Arthur W. Poirer

Remarks:

~~Water from the Umatilla River under Permit numbered 25924 will be supplemental to the ground water permit Application 66673. The lands covered by this application have an existing permit for irrigation water from the Umatilla river under the Teel irrigation district. The land owner would like to use the water appropriated under this ground water application as supplemental to the existing Teel permit, and if Teel district water does become available ground water would be used only if insufficient district water was available. However if for some reason the Teel water does not become available the land owner would like this permit to revert to primary and retain its priority~~

date. If this is not possible the land owner will use ground water on this permit as the only source.
 STATE OF OREGON, } ss.
 County of Marion, }

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for correction and completion

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before ~~January 3~~, 1975.
February 5 75

WITNESS my hand this ~~4th~~ day of ~~November~~, 1974.

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 4.0 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from Well #1

The use to which this water is to be applied is for irrigation

If for irrigation, this appropriation shall be limited to 1/30th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is September 26, 1974

Actual construction work shall begin on or before November 3, 1976 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1977

Complete application of the water to the proposed use shall be made on or before October 1, 1978

WITNESS my hand this 3rd day of November, 1975

James E. ...
STATE ENGINEER
Water Resources Director
