(Postoffice Address)
state of Oregon, do hereby make application for a permit to appropriate the
following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

N/A

1. Give name of nearest stream to which the well, tunnel or other source of water development is
situated Little Pudding River
(Name of stream)

tributary of Pudding River

2. The amount of water which the applicant intends to apply to beneficial use is .0875 cubic
feet per second or 39.27 gallons per minute.

3. The use to which the water is to be applied is Irrigation of crops

4. The well or other source is located XXXX ft. South and XXXX ft. West from the NE
3,311.38 feet N. 26° 23' W. from the SE corner of the F.R. Woodworth DLC in
corner of Section 10 Township 7 South, Range 2 West of the Willamette Meridian in
(Section or subdivision)
Marion County, Oregon.
(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the NE 1/4 of the NE 1/4 of Sec. 10, Twp. 7S, R. 2W,
W. M., in the county of Marion

5. The Same as # 1 to be miles
(Canal or pipe line)
in length, terminating in the of Sec. , Twp. ,
(Smallest legal subdivision)
R. , W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is Creasy well.

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the
supply when not in use must be described.

N/A

8. The development will consist of One well having a
(Give number of wells, tunnels, etc.)
diameter of 8 inches and an estimated depth of 150 feet. It is estimated that
feet of the well will require Steel casing. Depth to water table is estimated 70'
(Kind) (Feet)

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) N/A feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake in.; in size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? . Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type 5 HP Electric submersible pump

Give horsepower and type of motor or engine to be used 5 HP electric

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development N/A

12. Location of area to be irrigated, or place of use 4075 76th St. N.E. Salem Ore.

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
7 South	2 West	10	NE 1/4 of NE 1/4	6.336
7 S	2 W	11	NW 1/4 of NW 1/4	0.55
				6.786

(If more space required, attach separate sheet)

Character of soil Sandy loam

Kind of crops raised Alfalfa & Row crops

MUNICIPAL SUPPLY-----

13. To supply the city of N/A

in county, having a present population of

and an estimated population of in 19.....

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

14. Estimated cost of proposed works, \$.....\$ 5,000.00...

15. Construction work will begin on or before June 1974 by C.W. Setters of Miller & West
well drillers.

16. Construction work will be completed on or before August 1974.....

17. The water will be completely applied to the proposed use on or before June 1975

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.09 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from Creasy Well

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is June 25, 1975

Actual construction work shall begin on or before January 12, 1977 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1978

Complete application of the water to the proposed use shall be made on or before October 1, 1979

WITNESS my hand this 12th day of January 1976
