

Permit No. G- **G 6340**

APPLICATION FOR A PERMIT (CERTIFICATE NO. **45825**)

To appropriate the Ground Waters of the State of Oregon

I, Robert D. Schubert (Name of applicant)
of Milton-Freewater, Rt 2 Box 280 county of Umatilla,
(Postoffice Address)
state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated East Mud Creek (Name of stream)

tributary of Walla Walla

2. The amount of water which the applicant intends to apply to beneficial use is cubic feet per second or 30 gallons per minute.

3. The use to which the water is to be applied is ~~Domestic plus~~
irrigating approx 3 acres of pasture

4. The well or other source is located 1800 ft. N and 150 ft. E from the SW corner of Section 22 (Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)
being within the Tax Lot 300 NW 1/4, SW 1/4 of Sec. 22, Twp. 6 N, R. 35 E, W. M., in the county of Umatilla

5. The to be miles (Canal or pipe line)
in length, terminating in the NW 1/4 SW 1/4 of Sec. 22, Twp. 6 N, R. 35 E, W. M., the proposed location being shown throughout on the accompanying map. (Smallest legal subdivision)

6. The name of the well or other works is

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of 1 well having a diameter of 8" inches and an estimated depth of 119 feet. It is estimated that 88.5 feet of the well will require 8" steel casing. Depth to water table is estimated 34 (Kind) (Feet)

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake in.; in size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type 1, 3HP Submersible
to be at 80' deep

Give horsepower and type of motor or engine to be used 3HP Electric

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

we have no idea of how to obtain this information -
the stream is very shallow, probably only 6" deep - The land
lies flat, so diff. in elevation couldn't be more than 10'

12. Location of area to be irrigated, or place of use Irrigate Pasture + Home well

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
6N	75E	22	NW 1/4 SW 1/4	3

(If more space required, attach separate sheet)

Character of soil
Kind of crops raised Pasture

MUNICIPAL SUPPLY—

13. To supply the city of
in county, having a present population of
and an estimated population of in 19.....

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$ 1,900⁰⁰
- 15. Construction work will begin on or before 6-4-74
- 16. Construction work will be completed on or before 6-12-74
- 17. The water will be completely applied to the proposed use on or before 5-30-75

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. There is a small (approx 15 gpm) Ditch water right out of East Mud Creek. I believe the right is from 1921
~~There is a small (approx 15 gpm) Ditch water right out of East Mud Creek. I believe the right is from 1921~~

Robert D. Schenk
(Signature of applicant)

Remarks: water from the well is ample; we will not be using our water right at this time.

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.04 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is April 7, 1975

Actual construction work shall begin on or before January 12, 1977 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1977

Complete application of the water to the proposed use shall be made on or before October 1, 1978

WITNESS my hand this 12th day of January, 1976
