APPLICATION FOR A PERMIT

ASSIGNED. See Misc. Rec., Vol. 6 Page 104

To Appropriate the Ground Waters of the State of Oregon

I, Stanley D. Anderson
(Name of applicant)

of Hy 99 West Junction City, county of Lane
(Postoffice Address)

state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Flat Creek F I A
(Name of stream)

tributary of Willamette River

2. The amount of water which the applicant intends to apply to beneficial use is .9375 cubic feet per second or 450 gallons per minute.

3. The use to which the water is to be applied is Farm Irrigation

4. The well ^{#2} or other source is located 29 ft. S. and 2569 ft. W from the NE cor. of Jesse L. Sovern DLC # 55
(N. or S.) (E. or W.) (Section or subdivision)

Well #1: 509' S AND 3449' W From SAME CORNER (NE 1/4 SW 1/4)
(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)

Both being within the NE 1/4 of the SW 1/4 of Sec. 18, Twp. 15, R. 4W, W. M., in the county of

5. The to be miles
(Canal or pipe line)
in length, terminating in the of Sec., Twp., R., W. M., the proposed location being shown throughout on the accompanying map.
(Smallest legal subdivision)

6. The name of the well or other works is Well # 1 & 2

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of 1 well having a
(Give number of wells, tunnels, etc.)
diameter of 12" inches and an estimated depth of 34' feet. It is estimated that all
feet of the well will require steel casing. Depth to water table is estimated 16'
(Kind) (Feet)
Static Level is 7'

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake in.; in size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type Cornell centrifugal

Give horsepower and type of motor or engine to be used 40 HP electric

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

The well is 300' west of Fl. A and app. 6' higher than Fl. A

12. Location of area to be irrigated, or place of use Stanley D. Anderson farm

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
15S	4W	18	NE $\frac{1}{4}$ of the SW $\frac{1}{4}$	17
15S	4W	18	NW $\frac{1}{4}$ of the SE $\frac{1}{4}$	20
15S	4W	18	SE $\frac{1}{4}$ of the SW $\frac{1}{4}$	14
15S	4W	18	SW $\frac{1}{4}$ of the SE $\frac{1}{4}$	12
				63

(If more space required, attach separate sheet)

Character of soil Willamette silt loam

Kind of crops raised General row crop: bush beans, corn, ill, wheat

MUNICIPAL SUPPLY—

13. To supply the city of
in county, having a present population of
and an estimated population of in 19.....

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$ 20,000.....
- 15. Construction work will begin on or before June 1st 1975 Carl Pitcher #484.....
- 16. Construction work will be completed on or before July 1st 1975.....
- 17. The water will be completely applied to the proposed use on or before July 1st 1975.....

18. If the ground water supply is supplemental to an existing water supply, identify any appli-
cation for permit, permit, certificate or adjudicated right to appropriate water, made or held by the
applicant. As 35 acres of My farm already have an appropriation for water
(Registration No. GR 3667, Certificate No. GR 3363, Map No. Gr 3666)

* Stanley D. Anderson
(Signature of applicant)

Remarks: I would like this application No. 6995 to be applied to the
remaining 63 acres. As of this date, Aug. 26 1975, water from well #1
is being used on a portion of the ground now being filed on.
It is highly unlikely that the total 98 acres will
be watered at one time therefore I like to be able to
switch water from one well to several different places on my farm.

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.79 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from Well No. 1 and Well No. 2.

The use to which this water is to be applied is irrigation.

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed .2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is June 18, 1975

Actual construction work shall begin on or before March 24, 1977 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1977

Complete application of the water to the proposed use shall be made on or before October 1, 1978

WITNESS my hand this 24th day of March, 1976
