CERTIFICATE NO. 50576

SEP 02 1975

WATER RESOURCES DEPT  
SALEM, OREGON

Permit No. G-6563

APPLICATION FOR A PERMIT

To appropriate the Ground Waters of the State of Oregon

I, LAKE OSWEGO HUNT CLUB  
(Name of applicant)  
of 2725 SW IRON MOUNTAIN BLVD, County of CLACKAMAS  
(Postoffice Address)

state of OREGON, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

31 MARCH 1930, PORTLAND

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated SOUTHWEST END OF LAKE OSWEGO LAKE, WHICH IS FILLED  
(Name of stream)

By TUALATI RIVER, - EMPTIES INTO tributary of THE WILLAMETTE RIVER

2. The amount of water which the applicant intends to apply to beneficial use is 0.09 cubic feet per second or gallons per minute.

3. The use to which the water is to be applied is IRRIGATION OF A POLO FIELD

4. The well or other source is located 650 ft. N and 465 ft. W from the SE corner of the SE 1/4 of the NE 1/4 (EAST 1/4 CORNER) OF  
(N. or S.) (E. or W.)  
(Section or subdivision)

SECTION 8 T2S R1E W1M. or (N 27° 20' W 775.0 ft from the E 1/4 corner of Section 8)  
(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)  
being within the SE 1/4 NE 1/4 of Sec. 8 Twp. 2S, R. 1E, W. M., in the county of CLACKAMAS

5. The Portable System to be miles in length, terminating in the of Sec. , Twp. , R. , W. M., the proposed location being shown throughout on the accompanying map.  
(Canal or pipe line) (Smallest legal subdivision)

6. The name of the well or other works is

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of ONE WELL having a diameter of 6 inches and an estimated depth of 84 feet. It is estimated that 62 feet of the well will require BENTONITE casing. Depth to water table is estimated 1  
(Give number of wells, tunnels, etc.) (Kind) (Feet)

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.

(b) At ..... miles from headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.

(c) Length of pipe, ~~900~~ 900 ft.; size at intake 4 in.; in size at 950 ft. from intake 4 in.; size at place of use 4 in.; difference in elevation between intake and place of use, 15 ft. Is grade uniform? yes Estimated capacity, ~~150 gpm~~ 19 sec. ft. (85 gal/min)

10. If pumps are to be used, give size and type GOLD PUMP 85 gal/min.

Give horsepower and type of motor or engine to be used 7.5 h.p. Reliance 240v 3ph. electric.

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of area to be irrigated, or place of use

| Township N. or S. | Range E. or W. of Willamette Meridian | Section | Forty-acre Tract | Number Acres To Be Irrigated |
|-------------------|---------------------------------------|---------|------------------|------------------------------|
| 2S                | 1E                                    | 8       | SE 1/4 of NE 1/4 | 7.35                         |
|                   |                                       |         |                  |                              |
|                   |                                       |         |                  |                              |
|                   |                                       |         |                  |                              |
|                   |                                       |         |                  |                              |
|                   |                                       |         |                  |                              |
|                   |                                       |         |                  |                              |
|                   |                                       |         |                  |                              |
|                   |                                       |         |                  |                              |
|                   |                                       |         |                  |                              |
|                   |                                       |         |                  |                              |
|                   |                                       |         |                  |                              |
|                   |                                       |         |                  |                              |
|                   |                                       |         |                  |                              |
|                   |                                       |         |                  |                              |
|                   |                                       |         |                  |                              |
|                   |                                       |         |                  |                              |
|                   |                                       |         |                  |                              |
|                   |                                       |         |                  |                              |
|                   |                                       |         |                  |                              |

STATE OF OREGON, }  
County of Marion, } ss.

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.09 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is September 2, 1975

Actual construction work shall begin on or before March 24, 1977 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1977

Complete application of the water to the proposed use shall be made on or before October 1, 1978.

WITNESS my hand this 24th day of March, 1976.

*James E. ...*  
WATER RESOURCES DIRECTOR FH 5

Application No. G-7095  
Permit No. G-6563

PERMIT
