APPLICATION FOR A PERMIT

To Appropriate the Ground Waters of the State of Oregon

I, Brooks Resources Corporation

(Name of applicant)

of 416 East Greenwood - Bend, county of Deschutes

(Postoffice Address)

state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1972 - Bend, Oregon

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Indian Ford Creek

(Name of stream)

tributary of Squaw Creek

2. The amount of water which the applicant intends to apply to beneficial use is 2.9 cubic feet per second or 1300 gallons per minute.

3. The use to which the water is to be applied is Domestic

4. The well or other source is located 1530 ft. S and 1236 ft. W from the NE corner of Section Sixteen (16)

(N. or S.)

(E. or W.)

(Section or subdivision)

Direct tie from well to NE corner Section 16 is N 38°55'20"E 1967 Feet

(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the SE 1/4 NE 1/4 of Sec. 16, Twp. 14S, R. 9E, W. M., in the county of Deschutes

5. The Loop Distribution System to be 19.7 ± miles in length, terminating in the NW 1/4 NW 1/4 of Sec. 23, Twp. 14S, R. 9E, W. M., the proposed location being shown throughout on the accompanying map.

(Canal or pipe line)

(Smallest legal subdivision)

6. The name of the well or other works is Black Butte Ranch Well No. 2

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

N.A.

8. The development will consist of (2) wells (Completed) Well No. 2 having a diameter of 16 inches and an estimated depth of 287 feet. It is estimated that 287 feet of the well will require 0.312 gage steel casing. Depth to water table is estimated 245 copy of well No. 2 log enclosed

(Give number of wells, tunnels, etc.)

(Kind)

(Feet)

CANAL SYSTEM OR PIPE LINE—

G 6796

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) N.A. feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At N.A. miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, See plans attached ft.; size at intake in.; in size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type See attached well house No. 2 plans

Give horsepower and type of motor or engine to be used See attached well house No. 2 plans.

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

Well No. 2 elevation 3352 feet is about 2400 feet from Captain Jack Spring (Indian Ford Creek) Elevation 3340

12. Location of area to be irrigated, or place of use See Exhibit A.

Table with 5 columns: Township N. or S., Range E. or W. of Willamette Meridian, Section, Forty-acre Tract, Number Acres To Be Irrigated. The table is currently empty.

(If more space required, attach separate sheet)

Character of soil N.A.

Kind of crops raised N.A.

Application No. G-7017
Permit No. G 6796

13. To supply the city of Black Butte Ranch (A planned unit development)
in Deschutes county, having a present population of 1,000
and an estimated population of 4000 in 1990

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$ 1,000,000
- 15. Construction work ~~will begin on or before~~ Began in 1970
- 16. Construction work will be completed on or before 1980
- 17. The water will be completely applied to the proposed use on or before 1990
- 18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. Subject property also has 361.5 acres of 1886 water rights (Cert. No. 262) and 50 acres of 1880 water rights (Cert. No. 10936)

Remarks: _____

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for _____

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before _____, 19_____

WITNESS my hand this _____ day of _____, 19_____

By _____
STATE ENGINEER
C. E. [unclear]
ASSISTANT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 2.9 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from Black Butte Ranch Well No. 2

The use to which this water is to be applied is group domestic

If for irrigation, this appropriation shall be limited to of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water. The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times. The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is June 25, 1975

Actual construction work shall begin on or before August 5, 1977 and shall

thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1977

Complete application of the water to the proposed use shall be made on or before October 1, 1978.

WITNESS my hand this 5th day of August, 1976.

James P. Olson
