Permit No. G-.....

APPLICATION FOR A PERMIT

To Appropriate the Ground Waters of the State of Oregon

I, Maywood Industries of Oregon
(Name of applicant)
of P.O. Box 5079, Klamath Falls, OR97601, county of Klamath
(Postoffice Address)
state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

April 11, 1975 Oregon

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Klamath River
(Name of stream)
tributary of _____

2. The amount of water which the applicant intends to apply to beneficial use is .49 cubic feet per second or avg. 220 gallons per minute.

3. The use to which the water is to be applied is for heating

4. The well or other source is located _____ ft. _____ and _____ ft. _____ from the _____
(N. or S.) (E. or W.)
corner of 960.96 ft. N35 degrees 32' 01" W from the E 1/4 corner of Sec. 4,
(Section or subdivision)
T39S, R9E W.M.
(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the S E 1/4 N E 1/4 of Sec. 4, Twp. 39S, R. 9E,
W. M., in the county of Klamath

5. The _____ to be _____ miles
(Canal or pipe line)
in length, terminating in the _____ of Sec. _____, Twp. _____,
(Smallest legal subdivision)
R. _____, W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is Maywood Well

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

It will be capped when not in use

8. The development will consist of one well having a
(Give number of wells, tunnels, etc.)
diameter of 8 inches and an estimated depth of 1500 feet. It is estimated that 600
feet of the well will require 8 5/8 x .250 Wall casing. Depth to water table is estimated _____
(Kind) (Feet)
0 Feet

6849

6211

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) _____ feet; width on bottom _____ feet; depth of water _____ feet; grade _____ feet fall per one thousand feet.

(b) At _____ miles from headgate: width on top (at water line) _____ feet; width on bottom _____ feet; depth of water _____ feet; grade _____ feet fall per one thousand feet.

(c) Length of pipe, _____ ft.; size at intake _____ in.; in size at _____ ft. from intake _____ in.; size at place of use _____ in.; difference in elevation between intake and place of use, _____ ft. Is grade uniform? _____ Estimated capacity, _____ sec. ft.

10. If pumps are to be used, give size and type Turbine type pump

Give horsepower and type of motor or engine to be used 75 HP Vertical solid shaft 1800 RPM 460 Volt 3 phase Electrical

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of area to be irrigated, or place of use

Table with 5 columns: Township N. or S., Range E. or W. of Willamette Meridian, Section, Forty-acre Tract, Number Acres To Be Irrigated. Row 1: 39S, 9E, 4, 20 acres SE 1/4 NE 1/4, none.

(If more space required, attach separate sheet)

Character of soil

Kind of crops raised

13. To supply the city of _____
in _____ county, having a present population of _____
and an estimated population of _____ in 19.....

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$ 25,000
- 15. Construction work will begin on or before June 15, 1976
- 16. Construction work will be completed on or before November 15, 1976
- 17. The water will be completely applied to the proposed use on or before November 15, 1976
- 18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. none

Kenneth Linn - Plant Manager
(Signature of applicant)

Remarks: The water drain-off for the heating system is directed into an existing drainage ditch as shown on the plot plan in pencil. It in turn drains into the Klamath County Suburban Water Co. Lake. We have talked to the Suburban Water Co. and have their permission for this system. They state they will have no trouble in handling the drainage.

PERMIT

G 6826

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.49 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is heating

If for irrigation, this appropriation shall be limited to of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed acre feet per acre for each acre irrigated during the irrigation season of each year;
provided that use of water for heating in excess of 5,000 gallons per day shall be subsequent in priority to future beneficial consumptive use unless a two well system is constructed and all water wasted from the system recharged to the same ground water reservoir from which it was withdrawn.

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is June 28, 1976

Actual construction work shall begin on or before September 7, 1977 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1977.....

Complete application of the water to the proposed use shall be made on or before October 1, 1978..

WITNESS my hand this 7th day of September, 19 76.

James E. Sexton
WATER RESOURCES DIRECTOR
