SALMON, OREGON

Permit No. G-6854

APPLICATION FOR A PERMIT

"CERTIFICATE NO. 57134"

To Appropriate the Ground Waters of the State of Oregon

I, Ridgewood Development Improvement Company, c/e David Bussard
(Name of applicant)
of 1095 NW Heather Way, Corvallis, OR 97330, county of Benton
(Postoffice Address)
state of Oregon, do hereby make application for a permit to appropriate the
following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

12 February 1970, County of Benton

1. Give name of nearest stream to which the well, tunnel or other source of water development is
situated Oak Creek
(Name of stream)

tributary of Marys River

2. The amount of water which the applicant intends to apply to beneficial use is 0.36 cubic
feet per second or gallons per minute. being 0.29 cfs from #1 & 0.12 cfs from #2

3. The use to which the water is to be applied is domestic for 36 homes

4. The well or other source is located Well 1 N 14° W 294 ft. NE
Well 2 S 72° 03' E 60 ft. and from the most northerly
(N. or S.) (E. or W.)
corner of Luke Mulkey DLC No. 58 and in lot 2 block 4 Ridgewood 2nd addition
(Section or subdivision)

#2 corner of lot 9 block 2 Ridgewood addition or: - #1 580' N & 470' W,
(If preferable, give distance and bearing to section corner)
#2 290' N & 60' W both from the NE corner Mulkey DLC 58, both
(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the SE 1/4 SE 1/4 of Sec. 30, Twp. 11S, R. 5W
W. M., in the county of Benton

5. The See remarks to be miles
(Canal or pipe line)
in length, terminating in the SW 1/4 SE 1/4 of Sec. 30, Twp. 11S,
(Smallest legal subdivision)
R. 5, W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is Well #1 Well #2

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the
supply when not in use must be described.

8. The development will consist of 2 having a
(Give number of wells, tunnels, etc.)
diameter of #1 8 inches and an estimated depth of 192 feet. It is estimated that 63
#2 6 inches and an estimated depth of 313 feet. It is estimated that 22
feet of the well will require steel casing. Depth to water table is estimated 44
(Kind) (Feet) 00

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake in.; in size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type turbine

Give horsepower and type of motor or engine to be used 15 HP electric

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

Approximately 1,200 ft. from Oak Creek and 100 ft. above creek

12. Location of area to be irrigated, or place of use

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
IIS	5W	30	NW 1/4 SE 1/4 SW 1/4 SE 1/4 SE 1/4 SE 1/4	Group Domestic
In Ridgewood	addition	31	NE 1/4 NE 1/4 NW 1/4 NE 1/4	"
1st Addition to Ridgewood			See attached for specific places of use	
2nd addition to Ridgewood				
Domestic water for 36 single family residences. All owners holding a share in the company.				
	0.36 cfs

MUNICIPAL SUPPLY—

13. To supply the city of
in county, having a present population of
and an estimated population of in 19.....

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$ 19,483.....
- 15. Construction work will begin on or before in use.....
- 16. Construction work will be completed on or before 1978.....
- 17. The water will be completely applied to the proposed use on or before 1979.....
- 18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant.

RIDGEWOOD DEVELOPMENT IMPROVEMENT COMPANY
by X *David L. Bassard, President*
(Signature of applicant)

Remarks: The system consists of one producing well and a second drilled well with no pump installed at present; a delivery line from well to a 32,400 gallon reservoir. Distribution from reservoir is by gravity at lower elevations and booster pump at top elevations. Lines are all P.V.C. Other than at crossings the pipes are all laid in the dedicated road rights of ways outside of the blacktop. All shareholder users pay a flat monthly operating fee. No meters are installed. Original capital costs were included with the property purchase. All shares are for single family residences.

Pump and hookup of second well will be undertaken when need arises. Twenty-eight homes are now being served or home is under construction and will shortly be in use. Eight lots unoccupied and all in private hands hold shares in the company and are expected to be built upon within the next few years. A request for extension to complete project to serve 1 or 2 lots may occur at appropriate time.

Well #1 (in use) had been test pumped at 60 gpm for 24 hours with a 14 ft. drawdown. Estimated maximum capacity is 100+ gpm. Well #2 was ball tested at 30 gpm when drilled. Capacity of 50 gpm is anticipated.

Ridgewood Development Improvement Company owns lot 2, block 4, Ridgewood second addition on which well #1 is located. Also owned is lot 5, block 1, Ridgewood second addition on which the reservoir is located. Well #2 property is not owned.

Three copies of maps of approved plats are enclosed with this application. Maps include legal descriptions of property involved. All lots on enclosed maps except those designated as "out" are part of the water association.

STATE OF OREGON, }
County of Marion, } ss.

PERMIT

G 6854

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.04 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from 2 wells

The use to which this water is to be applied is group domestic for 36 families

If for irrigation, this appropriation shall be limited to of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is January 21, 1976

Actual construction work shall begin on or before November 18, 1977 and shall

thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1978

Complete application of the water to the proposed use shall be made on or before October 1, 1979

WITNESS my hand this 18th day of November, 1976
