

Permit No. G- 696

APPLICATION FOR A PERMIT

To Appropriate the Ground Waters of the State of Oregon

MR. DANIEL & EDWARD SHELLOE (Name of applicant)

of Box 516 West Sacramento Calif. county of

state of CALIFORNIA do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated ANA RIVER (Name of stream)

tributary of Summer Lake

2. The amount of water which the applicant intends to apply to beneficial use is cubic feet per second or gallons per minute.

3. The use to which the water is to be applied is Irrigation

4. The well or other source is located ft. and ft. from the corner of (N or S) (E or W)

(Section or subdivision)

N10°31'W 2743' from the South 1/4 Sec. Cor of

(If preferable, give distance and bearing to section corner)

Sec. 29. T27S R19E W4

If there is more than one well, each must be described. Use separate sheet if necessary.

being within the SE NW of Sec. 29 Twp. 27S R. 19E

W. M. of the county of LAKE

5. The Sprinkler lines to be 1/2 miles in length, terminating in the Variable of Sec. Twp.

(Canal or pipe line)

(Structural legal subdivision)

R. W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is VIEWPOINT NO. 3.

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of 1 having a diameter of inches and an estimated depth of 200 feet. It is estimated that feet of the well will require casing. Depth to water table is estimated

(Give number of wells, tunnels, etc.)

(Kind)

(Feet)

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) _____ feet; width on bottom _____ feet; depth of water _____ feet; grade _____ feet fall per one thousand feet.

(b) At _____ miles from headgate: width on top (at water line) _____ feet; width on bottom _____ feet; depth of water _____ feet; grade _____ feet fall per one thousand feet.

(c) Length of pipe, < _____ ft.; size at intake, _____ in.; in size at _____ ft. from intake _____ in.; size at place of use _____ in.; difference in elevation between intake and place of use, _____ ft. Is grade uniform? _____ Estimated capacity, _____ sec. ft.

10. If pumps are to be used, give size and type _____

Give horsepower and type of motor or engine to be used _____

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development _____

12. Location of area to be irrigated, or place of use _____

Township N or S	Range E or W of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
275	19E	29	NE NW	40
			SE NW	40
			SW NE	40

(If more space required, attach separate sheet)

Character of soil _____

Kind of crops raised _____

MUNICIPAL SUPPLY—

13. To supply the city of _____
in _____ county, having a present population of _____
and an estimated population of _____ in 19_____

- 14. Estimated cost of proposed works, \$ 9172 71
- 15. Construction work will begin on or before completed
- 16. Construction work will be completed on or before completed
- 17. The water will be completely applied to the proposed use on or before _____

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. _____

[Handwritten Signature]
(Signature of applicant)

Remarks: _____
OPERATED JOINTLY with others as Piedmont Ranches Inc.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for _____ completion _____

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before November 12, 1957.
November 18, 1957
WITNESS my hand this 12th day of September, 1957.
17th September 57

LEWIS A. STANLEY
STATE ENGINEER

By James W. Carver, Jr., Assistant mb

County of Marion.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 1.50 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from Viewpoint Well

43

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year:

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is August 14, 1957

Actual construction work shall begin on or before December 30, 1958 and shall

thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1959

Complete application of the water to the proposed use shall be made on or before October 1, 1960

WITNESS my hand this 30th day of December, 1957.
