Permit No. G- G 6908

APPLICATION FOR A PERMIT

To Appropriate the Ground Waters of the State of Oregon

I, OSCAR V. JOHNSON

(Name of applicant)

of Route 2, Box 2127, Hermiston (97838), county of Umatilla

(Postoffice Address)

state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Umatilla River

(Name of stream)

tributary of Columbia River

2. The amount of water which the applicant intends to apply to beneficial use is 0.10 cubic feet per second or 45 gallons per minute.

3. The use to which the water is to be applied is irrigation of pasture (approx 1 1/2 acres), lawn and garden (approx 1/2 acre combined).

4. The well or other source is located approx 2,240 ft. N and approx 740 ft. E from the SW corner of Section 34

(N. or S.)

(E. or W.)

(Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the East 1/2, NW 1/2, SW 1/2 of Sec. 34, Twp. 5N, R. 28 EWM, W. M., in the county of Umatilla

5. The (Canal or pipe line) to be miles in length, terminating in the (Smallest legal subdivision) of Sec. Twp. R. W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is (No other ground water filing).

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of one well having a diameter of six inches and an estimated depth of 115 feet. It is estimated that 115 feet of the well will require steel casing. Depth to water table is estimated 70'

(Give number of wells, tunnels, etc.)

(Feet)

MUNICIPAL SUPPLY—

G 6968

13. To supply the city of Not applicable.
in county, having a present population of
and an estimated population of in 19.....

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$1,707 (actual).
- 15. Construction work will begin on or before Well was drilled January 24, 1973.
- 16. Construction work will be completed on or before Has been completed.
- 17. The water will be completely applied to the proposed use on or before Water has been applied in irrigation season since March 1973.
- 18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. None.

Charles W. Johnson
(Signature of Applicant)

Remarks: Applicant was unaware of the provisions of the Ground Water Act of 1955 and after drilling new well to replace ailing domestic well (no longer used) in good faith applied irrigation water to approximately 1.5 acres of former desert land now in seeded pasture. From examination of Plate 1, Ground Water Report No. 23, October 1975 (William B. McCall) this well appears to be well outside of the Control Boundary- Alluvial Aquifers. Continued application to maintain the well-established pasture is justified from an environmental viewpoint and to protect the investment in land improvement made in good faith.

STATE OF OREGON, }
County of Marion, } ss.

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.03 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is August 24, 1976

Actual construction work shall begin on or before January 7, 1978 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1978

Complete application of the water to the proposed use shall be made on or before October 1, 1979

WITNESS my hand this 7th day of January, 19 77

James E. Seaman
