Permit No. G.....

"CERTIFICATE NO. 58654"

APPLICATION FOR A PERMIT

To Appropriate the Ground Waters of the State of Oregon

I, McNULTY WATER ASSOCIATION (Name of applicant)
of Warren (Postoffice Address), county of Columbia,
state of Oregon 97053, do hereby make application for a permit to appropriate the
following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1963 St. Helens, Oregon

1. Give name of nearest stream to which the well, tunnel or other source of water development is
situated McNulty Creek (Name of stream)

tributary of Columbia River

2. The amount of water ~~with~~ ^{for} the applicant intends to apply to beneficial use is 0.04 McHawrence cubic
feet per second or ~~420~~ 18 gallons per minute. Please see remarks
during non-irrigation season ~~and 0.13 during irrigation season.~~

3. The use to which the water is to be applied is domestic and commercial supply

4. The well or other source is located 2277 ft. S and 1881 ft. E from the NW
corner of Section 13, T4N, R2W (Section or subdivision)
(2953.5 feet at N 39° 33' 34" to the section corner)
(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the SE 1/4, NW 1/4 of Sec. 13, Twp. 4N, R. 2W,
W. M., in the county of Columbia

5. The McNulty Water Association (Canal or pipe line) to be miles
in length, terminating in the NE 1/4 SE 1/4 of Sec. 26, Twp. 5N,
R. 2W, W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is DeShazer Well

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the
supply when not in use must be described.

8. The development will consist of one well (Give number of wells, tunnels, etc.) having a
diameter of 12 inches and an estimated depth of 150 feet. It is estimated that 150
feet of the well will require concrete & screen casing. Depth to water table is estimated 75'
(Kind) (Feet)
to the static water level.

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, 79,200 ft.; size at intake 6" well to reservoir in.; in size at 3000+ ft. from intake 8" in.; size at place of use 3/4 or 1" services in.; difference in elevation between intake and place of use, 240 ft. Is grade uniform? No. Estimated capacity, .40 sec. ft.

10. If pumps are to be used, give size and type 25 HP 3500 rpm Cornell

Give horsepower and type of motor or engine to be used 220 volt. 3 phase

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of area to be irrigated, or place of use McNulty Water Association members. See map.

Table with 5 columns: Township N. or S., Range E. or W. of Willamette Meridian, Section, Forty-acre Tract, Number Acres To Be Irrigated. The table is currently empty.

(If more space required, attach separate sheet)

Application # G-7255
Permit # G 6977

MUNICIPAL SUPPLY—

13. To supply the city of
in county, having a present population of 475 families (projected).....
and an estimated population of in 19.....
and 8 commercial users by 1990.

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$ 5,000.....
- 15. Construction work will begin on or before started.....
- 16. Construction work will be completed on or before January 1, 1990.....
- 17. The water will be completely applied to the proposed use on or before January 1, 1990.....

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant.

M. Lawrence
Vice President, McNulty Water Assoc.

Remarks: An application is being submitted proposing the transfer of existing right for 0.04 *M. Lawrence* cfs from irrigation use to domestic and commercial use. The existing right is presently evidenced by the certificate No. 28177 issued to Paul J. DeShazer.

Corrected amounts of CFS in item two and above are hereby accepted.

M. Lawrence
Vice President, McNulty Water Assoc.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for correction.....

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before February 23, 1977.....

WITNESS my hand this 20 day of December, 1976.....

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.04 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from DeShazer Well during the non-irrigation season of each year.

The use to which this water is to be applied is quasi-municipal

If for irrigation, this appropriation shall be limited to of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is February 11, 1976

Actual construction work shall begin on or before January 18, 1978 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1978

Complete application of the water to the proposed use shall be made on or before October 1, 1979

WITNESS my hand this 18th day of January, 19 77

James E. Nelson
WATER RESOURCES DIRECTOR
