APPLICATION FOR A PERMIT

To Appropriate the Ground Waters of the State of Oregon

I, Wm A Dugger (Name of applicant)
of Vale, Oregon P.O. Box 415 (Postoffice Address), County of Malheur,
state of Oregon 97715, do hereby make application for a permit to appropriate the
following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Willow Creek (Name of stream) tributary of Malheur River
2. The amount of water which the applicant intends to apply to beneficial use is _____ cubic feet per second or 125 gallons per minute.
3. The use to which the water is to be applied is Irrigation
4. The well or other source is located _____ ft. _____ and _____ ft. _____ from the corner of S. 32° 10' 845' (N. or S.) (E. or W.) (Section or subdivision) from the NE 1/4 Sec 20, T.18S. R. 45E. W. 17. (If prefix SE, NE, etc., give distance and bearing to section corner)
- (If there is more than one well, each must be described. Use separate sheet if necessary)
- being within the SE 1/4 NE 1/4 of Sec. 20, Twp. 18S, R. 45E W. M., in the county of Malheur
5. The Portable Sprinkler System (Canal or pipe line) _____ miles in length, terminating in the _____ of Sec. _____, Twp. _____, R. _____, W. M., the proposed location being shown throughout on the accompanying map.
6. The name of the well or other works is Dugger No. 1

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of 1 well (Give number of wells, tunnels, etc.) having a diameter of 15 inches and an estimated depth of 27 feet. It is estimated that 25 feet of the well will require CMP (Kind) casing. Depth to water table is estimated 8 (Feet)

8193

CANAL SYSTEM OR PIPE LINE—

(b) At miles from headgate: width on top (at water line)
 feet; width on bottom feet; depth of water feet;
 grade feet fall per one thousand feet.

10. If pumps are to be used, give size and type G. E. Centrifugal

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

Distance = 1000' 700
Difference in Elev 16 feet.

12. Location of area to be irrigated, or place of use

[illegible]

(If more space required, attach separate sheet)

Character of soil 5.14

Kind of crops raised Hay and pas. feed

MUNICIPAL SUPPLY—

13. To supply the city of
 in county, having a present population of
 and an estimated population of in 19.....

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

14. Estimated cost of proposed works, \$..... 515.00.00
15. Construction work will begin on or before started
16. Construction work will be completed on or before July 1, 1977
17. The water will be completely applied to the proposed use on or before July 1, 1978
18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. See Remarks

William A. Dugger
 (Signature of applicant)

Remarks: There is a possible chance that this area could have a defunct right from Willow Creek. Mr. Frank Elfering suggests that if there is any right, to forward him the necessary for to cancel out any old right. There are no existing ditches or turn outs and the only way this acreage can be irrigated is from the well.

STATE OF OREGON, }

PERMIT

G 7022

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.14 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from Dugger Well

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is October 22, 1976

Actual construction work shall begin on or before January 18, 1978 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1978

Complete application of the water to the proposed use shall be made on or before October 1, 1979

WITNESS my hand this 18th day of January, 1977

James E. Dixon
