If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated McKay Creek

(Name of stream)

tributary of Umatilla River

2. The amount of water which the applicant intends to apply to beneficial use is 50 cubic feet per second or 50 gallons per minute.

3. The use to which the water is to be applied is Irrigation

4. The well or other source is located 390 ft. S and 441 ft. E from the NW corner of NE 1/4 of Section 34, Township 2 North, Range 32 East

(N. or S.)

(E. or W.)

(Section or subdivision)

(If preferable, give distance and bearing to section corner)

If there is more than one well, each must be described. Use separate sheet if necessary.

being within the NW 1/4 NE 1/4 of Sec. 34, Twp. 2 N, R. 32 E

W. M., in the county of Umatilla

5. The (Canal or pipe line) to be miles in length, terminating in the (Smallest legal subdivision) of Sec. Twp. R.

R. W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is Stewart

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of 1 well having a diameter of 8 inches and an estimated depth of 201 feet. It is estimated that 25 feet of the well will require 8" steel casing. Depth to water table is estimated 45

(Give number of wells, tunnels, etc.)

(Kind)

(Feet)

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) _____ feet; width on bottom _____ feet; depth of water _____ feet; grade _____ feet fall per one thousand feet.

(b) At _____ miles from headgate: width on top (at water line) _____ feet; width on bottom _____ feet; depth of water _____ feet; grade _____ feet fall per one thousand feet.

(c) Length of pipe, 726 ft.; size at intake, 2" in.; in size at _____ ft. from intake _____ in.; size at place of use 2" in.; difference in elevation between intake and place of use, 50 or 60 ft. Is grade uniform? No. Estimated capacity, _____ sec. ft.

10. If pumps are to be used, give size and type 5 H.P. Turbine 50 G.P.M.

Give horsepower and type of motor or engine to be used

5 H.P. - 3 phase

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

nearest stream is over 1/4 mile

12. Location of area to be irrigated, or place of use

Township N. or S	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
2 N	32 E	34	NW 1/4 NE 1/4	1.72 supd'1
			NW 1/4 NE 1/4	3.28

(If more space required, attach separate sheet)

Character of soil _____ on the sandy side

Kind of crops raised Garden, trees, berries

MUNICIPAL SUPPLY—

12. To supply the city of
in county, having a present population of
and an estimated population of in 19.....

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$ 2700
- 15. Construction work will begin on or before October 1, 1957
- 16. Construction work will be completed on or before October 1, 1959
- 17. The water will be completely applied to the proposed use on or before October 1, 1959

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. have water rights to all land laying below Marion Jack Irrigation Ditch

William A. Stewart
(Signature of applicant)

Remarks: Part of this 5 acres is on the hill side which will take more water, also I will not use this water at all times. Will use 50 gpm only part time. At other times it will be cut off.

STATE OF OREGON,)
County of Marion,) ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before 19

WITNESS my hand this day of 19

STATE ENGINEER

By ASSISTANT

County of Marion,

ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.06 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is irrigation and supplemental irrigation

If for irrigation, this appropriation shall be limited to 1/80 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year; provided further that the amount of water allowed herein, together with the amount secured under any other right existing for the same lands shall not exceed the limitation allowed herein,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is November 5, 1957

Actual construction work shall begin on or before December 30, 1958 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1959

Complete application of the water to the proposed use shall be made on or before October 1, 1960

WITNESS my hand this 30th day of December, 1957

Lewis A. Stanley STATE ENGINEER
