FROM INFORMATION FURNISHED BY THE APPLICANT.

6. The amount of water which the applicant intends to apply to beneficial use is ..... cubic feet per second or ...3.498..... gallons per minute.

7. The use to which the water is to be applied is Primary Irrigation

8. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

9. If the location of the well, or other development work is less than one-fourth mile from a natural stream channel, give the distance to the channel and the difference in elevation between the stream bed and the ground surface at the source of development.

10.

DESCRIPTION OF WORKS

Include length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

This well was previously filled on under Permit U-620, in 1954. I recently hired Mr. Wallace to clean out the well which gave me a larger volume of water so I'am picking up additional acreage with this application.

I'am in the process of burying a 12" mainline throughout the project.

I "installed a 250 HP electric pump on the well with an 100 HP booster pump.

11. Construction work will begin on or before Completed

12. Construction work will be completed on or before Completed

13. The water will be completely applied to the proposed use on or before October 1, 1977.

14. If the ground water supply is supplemental to an existing supply, identify the supply and existing water right.
