Application No. G-8056

Permit No. G 7462

RECEIVED

APR 23 1977

STATE OF OREGON WATER RESOURCES DEPARTMENT

Application for a Permit to Appropriate Ground Water

I, Donald F. and Norma J. Lowrey
(Name of Applicant)

of 3800 Highway 99 South Ashland
(Mailing Address) (City)

State of Oregon 97520 Phone No. 482-5437 do hereby
(Zip Code)

make application for a permit to appropriate the following described ground waters of the State of Oregon:

1. The development will consist of One well
(Give number of wells, tile lines, infiltration galleries, etc.)

having a diameter of six inches and an estimated depth of 200 feet.

2. The well or other source is to be located 230 ft. S and 377 ft. E
(N. or S.) (E. or W.)

from the S.S.F. corner of D.L.C. No. 54
(Public Land Survey Corner)

Not applicable
(If there is more than one well, each must be described)

being within the S.E. $\frac{1}{4}$ of the S.W. $\frac{1}{4}$ of
Sec. 24 Tp. 39S R. 1E, W. M., in the county of Jackson

3. Location of area to be irrigated, or place of use if use other than irrigation.

Township	Range	Section	List $\frac{1}{4}$ $\frac{1}{4}$ of Section	List use and/or number of acres to be irrigated
<u>39S</u>	<u>1E</u>	<u>24</u>	<u>SE $\frac{1}{4}$ of SW $\frac{1}{4}$</u>	<u>.94 ACRE</u>

4. It is estimated that 40 feet of the well will require 6" steel casing.
(Kind)

5. Depth to water table is estimated 16 Well drilled by Crater Well Drilling, Medford, Or.
(Feet)

6. The amount of water which the applicant intends to apply to beneficial use is 0.49 cubic feet per second or 22 gallons per minute.

7. The use to which the water is to be applied is pasture irrigation

8. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

Not applicable

9. If the location of the well, or other development work is less than one-fourth mile from a natural stream channel, give the distance to the channel and the difference in elevation between the stream bed and the ground surface at the source of development.

Not applicable

10.

DESCRIPTION OF WORKS

Include length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

3 HP, submersible pump suspended at 190' in the well supplies a main line of approx. 400' of 2" PVC pipe with 6 1" PVC laterals, each 100' in length. Each lateral contains 3 type 303 Rainbird sprinklers each having a flow capacity of approx. 6 1/2 gpm.

11. Construction work will begin on or before Completed.

12. Construction work will be completed on or before Completed.

13. The water will be completely applied to the proposed use on or before MAY 1, 1977

14. If the ground water supply is supplemental to an existing supply, identify the supply and existing water right. None except when Talent Irrigation District rental water is available, such water will be used in lieu of well water described hereon.

Application No. G-8056

Permit No. G 7462

XPC Application No. G-8056

Permit No. G 7462

Permit to appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.01 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from one well

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year; provided further that the right allowed herein shall be limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer. The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times. The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is April 22, 1977

Actual construction work shall begin on or before September 14, 1978 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1978

Complete application of the water to the proposed use shall be made on or before October 1, 1979

WITNESS my hand this 14th day of September, 1977

James E. Sexton
Water Resources Director
