Permit No. G-.....

APPLICATION FOR A PERMIT

CERTIFICATE NO. 48324

## To Appropriate the Ground Waters of the State of Oregon

I, MRS. EUGENE C. HILL  
(Name of applicant)  
of Rt. 1 Box 42 Eugene, county of Lane,  
(Postoffice Address)  
state of Oregon 97402, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, **SUBJECT TO EXISTING RIGHTS:**

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Long Tom River  
(Name of stream)

tributary of Willamette River

2. The amount of water which the applicant intends to apply to beneficial use is 1.6 cubic feet per second or ..... gallons per minute.

3. The use to which the water is to be applied is Irrigation

4. The well or other source is located 1530 ft. South and 1175 ft. West from the NE corner of Section 26 T16S - R5W W.M.  
(N. or S.) (E. or W.) (Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the SE NE 1/4 of Sec. 26, Twp. 16 S., R. 5 W., W. M., in the county of Lane

5. The ..... to be ..... miles  
(Canal or pipe line)  
in length, terminating in the ..... of Sec. ...., Twp. ...., R. ...., W. M., the proposed location being shown throughout on the accompanying map.  
(Smallest legal subdivision)

6. The name of the well or other works is .....

### DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of one well having a diameter of 10 inches and an estimated depth of 90 feet. It is estimated that 86 feet of the well will require welded casing. Depth to water table is estimated 26  
(Give number of wells, tunnels, etc.) (Kind) (Feet)

C 10213

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.

(b) At ..... miles from headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.

(c) Length of pipe, ..... ft.; size at intake ..... in.; in size at ..... ft. from intake ..... in.; size at place of use ..... in.; difference in elevation between intake and place of use, ..... ft. Is grade uniform? ..... Estimated capacity, ..... sec. ft.

10. If pumps are to be used, give size and type ..... Jacuzzi Model 2056H5  
 20 H.P. submersible turbine - 6", 2450 RPM 230/30/60

Give horsepower and type of motor or engine to be used .....

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of area to be irrigated, or place of use .....

| Township<br>N. or S. | Range<br>E. or W. of<br>Willamette Meridian | Section | Forty-acre Tract | Number Acres<br>To Be Irrigated |
|----------------------|---|---------|------------------|---------------------------------|
| 16 - S               | 5 W   | 26      | NW NE            | 40.0                            |
|                      |   |         | SW NE            | 40.0                            |
|                      |   |         | NE NE            | 31.5                            |

|                      |   |         |                  | 125.2                           |
|                      |   |         |                  |                                 |
|                      |   |         |                  |                                 |
|                      |   |         |                  |                                 |
|                      |   |         |                  |                                 |
|                      |   |         |                  |                                 |
|                      |   |         |                  |                                 |
|                      |   |         |                  |                                 |
|                      |   |         |                  |                                 |
|                      |   |         |                  |                                 |
|                      |   |         |                  |                                 |

(If more space required, attach separate sheet)

Character of soil ..... Top soil

Kind of crops raised ..... Grass seed

MUNICIPAL SUPPLY—

13. To supply the city of .....  
in ..... county, having a present population of .....  
and an estimated population of ..... in 19.....

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

14. Estimated cost of proposed works, \$ 1,175.00.....

15. Construction work will begin on or before October 1973.....

16. Construction work will be completed on or before .....

17. The water will be completely applied to the proposed use on or before May 1974.....

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. ....

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before ....., 19.....

WITNESS my hand this ..... day of ....., 19.....

STATE ENGINEER

By ..... ASSISTANT

STATE OF OREGON, }  
County of Marion, } ss.

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 1.57 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is April 25, 1977

Actual construction work shall begin on or before September 14, 1978 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1978

Complete application of the water to the proposed use shall be made on or before October 1, 1979

WITNESS my hand this 14th day of September 1977
