

STATE OF OREGON WATER RESOURCES DEPARTMENT

Application for a Permit to Appropriate Ground Water

I, Richard P. Jenks (Name of Applicant) CERTIFICATE NO. 47251

of Rt 3 Box 631 (Mailing Address), Aurora (City)

State of Oregon, 97002 (Zip Code) Phone No. 678-1209 do hereby

make application for a permit to appropriate the following described ground waters of the State of Oregon:

1. The development will consist of 2 wells (Give number of wells, tile lines, infiltration galleries, etc.) having a diameter of New Well 8" and an estimated depth of 300 feet.

2. The well or other source is to be located 9 ch N S and 21.8 ch W from the E 1/4 corner of Sect. 11 T4S R1W WM (Public Land Survey Corner) New Well: 8 chs S & 13.8 chs W from E 1/4 cor of Sect 11

being within the old NW 1/4 of the SE 1/4 of Sec. 11 Tp. 4S R. 1W, W. M., in the county of Marion

3. Location of area to be irrigated, or place of use if use other than irrigation.

Table with 5 columns: Township, Range, Section, List 1/4 of Section, List use and/or number of acres to be irrigated. Includes handwritten entries for Township 4S, Range 1W, Section 12, and irrigated areas of 2.4 a and 8.5 a.

4. It is estimated that old well 120 feet of the well will require Steel Casing casing. 5. Depth to water table is estimated New well 800 104 (Feet) Well drilled by New Well Picky Miller S & M well drilling.

RECEIVED MAY 10 1977 WATER RESOURCES DEPT.

6. The amount of water which the applicant intends to apply to beneficial use is 0.13 cubic feet per second or gallons per minute.

7. The use to which the water is to be applied is Irrigation from new well
Supplemental irrigation from old well

8. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

9. If the location of the well, or other development work is less than one-fourth mile from a natural stream channel, give the distance to the channel and the difference in elevation between the stream bed and the ground surface at the source of development.

10.

DESCRIPTION OF WORKS

Include length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

New well has 15 h.p. submersible pump and
800 ft 4" p.v.c. mainline and 450 ft of temporary
aluminum 4" mainline.

11. Construction work will begin on or before.....

12. Construction work will be completed on or before.....

13. The water will be completely applied to the proposed use on or before.....

14. If the ground water supply is supplemental to an existing supply, identify the supply and existing water right.....

1100

Permit to appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same, **SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD** and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.13 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from two wells

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer. The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is May 10, 1977

Actual construction work shall begin on or before September 14, 1978 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1978

Complete application of the water to the proposed use shall be made on or before October 1, 1979

WITNESS my hand this 14th day of September, 1977

Water Resources Director
