

Permit No. G- 757

APPLICATION FOR A PERMIT

To appropriate the Ground Waters of the State of Oregon

I, Archie Heald and Wilena M. A. Heald (Name of applicant)

of (Postoffice Address), county of Umatilla

state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Walla Walla River (Name of stream)

2. The amount of water which the applicant intends to apply to beneficial use is .56 cubic feet per second or 250 gallons per minute.

3. The use to which the water is to be applied is irrigation

4. The well or other source is located 511.7 ft West and 1041.26 ft North from the Southeast corner of Section 33, Township 6, North Range 35, E.W.M. (Section or subdivision)

(If preferable, give distance and bearing to section corner)

If there is more than one, each must be described. Use separate sheet if necessary.

being within the Southeast Quarter of the Sec. 33, Twp. 6 N, R. 35 E. Southeast Quarter W. M., in the county of Umatilla

5. The (Canal or pipe line) to be miles in length, terminating in the (Smallest legal subdivision) of Sec. , Twp.

R. W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is None

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of one well having a diameter of six inches and an estimated depth of 125 feet. It is estimated that 25 feet of the well will require 5" steel casing. Depth to water table is estimated (Feet)

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, 1200 ft.; size at intake, 4 in.; in size at 100 ft. from intake 3 in.; size at place of use 3 in.; difference in elevation between intake and place of use, 15 ft. Is grade uniform? Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type

5 HP Centrifical High Pressure Pump

Give horsepower and type of motor or engine to be used 5 HP

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of area to be irrigated, or place of use ~~lots 3 and 4 in Appledale~~

Township N or S.	Range E or W of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
6 North	35 EWM	33	NBE of the SE and	.16 acres
			SNE of the SE and NW of the SW and SW of the SW	2.00 acres
			NW of the SE and	2.00 acres
			SW of the SE	3.32 acres

(If more space required, attach separate sheet)

Character of soil rocky

Kind of crops raised diversified - fruit trees

MUNICIPAL SUPPLY—

13. To supply the city of _____
in _____ county, having a present population of _____
and an estimated population of _____ in 19 _____.

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

14. Estimated cost of proposed works, \$ 350

15. Construction work will begin on or before _____

16. Construction work ~~will be~~ ^{was} completed on or before 1950

17. The water will be completely applied to the proposed use on or before already applied

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant.

Remarks:

(Signature of applicant)

Address: 140 S. E. 7th Avenue
Milton-Freewater, Oregon

STATE OF OREGON,)
) ss.
County of Marion,)

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for _____

In order to retain its priority, this application must be returned to the State Engineer, in this office on or before March 17 1958

WITNESS my hand this 17th day of January 1958

By _____

County of Marion, } ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.10 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is supplemental irrigation

If for irrigation, this appropriation shall be limited to 1/80 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 1 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year; provided further that the amount of water allowed herein, together with the amount secured under any other right existing for the same lands shall not exceed the limitation allowed herein.

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring a line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn

The priority date of this permit is

November 6, 1959

Actual construction work shall begin on or before

March 25, 1960

and

thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1960

Complete application of the water to the proposed use shall be made on or before October 1, 1960

WITNESS my hand this 24th day of

March

1959
