

Permit No. G-762

APPLICATION FOR A PERMIT

To appropriate the Ground Waters of the State of Oregon

I, Willie Rand of Milton-Freewater, R. #2, Box 189, county of Umatilla state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated East Branch of Mud Creek

tributary of Walla Walla River

2. The amount of water which the applicant intends to apply to beneficial use is 0.5 cubic feet per second or gallons per minute.

3. The use to which the water is to be applied is Irrigation

4. The well or other source is located 33 ft. N. and 660 ft. West from the SE corner of the SW 1/4 of Section 16, T.P. 6 N.R. 35 E.W.M.

(If preferable, give distance and bearing to section corner)

being within the SE 1/4 of SW 1/4 of Sec. 16, Twp. 6 N., R. 35 E. W. M., in the county of Umatilla

5. The used by means of Sprinkling system to be miles in length, terminating in the of Sec. Twp.

R. W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is Rand.

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of one well having a diameter of 8 inches and an estimated depth of 71 feet. It is estimated that 48 feet of the well will require steel casing. Depth to water table is estimated 30

**CANAL SYSTEM OR PIPE LINE—**

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.

(b) At ..... miles from headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.

(c) Length of pipe, ..... ft.; size at intake, ..... in.; in size at ..... ft. from intake ..... in.; size at place of use ..... in.; difference in elevation between intake and place of use, ..... ft. Is grade uniform? ..... Estimated capacity, ..... sec. ft.

10. If pumps are to be used, give size and type

Turbine pump 4" discharge and 4" intake - 1 1/2 hp motor

Give horsepower and type of motor or engine to be used 7 1/2 H.P. G.E. 3 Phase motor

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

885 ft. est. 15 ft. lower stream bed than surface at well.

12. Location of area to be irrigated, or place of use

Township N or S	Range E or W of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
6 N.	35 E.	16	SE 1/4 of SW 1/4	30
			Supplemental to 23 acres adjudicated and 7 acres new.	

(If more space required, attach separate sheet)

Character of soil Volcanic ash.

Kind of crops raised general crops, pasture, Beets etc.

MUNICIPAL SUPPLY—

13. To supply the city of .....

in ..... county, having a present population of .....

and an estimated population of ..... in 19.....

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

14. Estimated cost of proposed works, \$ 700

15. Construction work will begin on or before already completed

16. Construction work will be completed on or before already completed

17. The water will be completely applied to the proposed use on or before already has been applied

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant.

Supplemental to 23 acre right adjudicated to place under

East Branch of Mud creek adjudication-listed in name of A.F. Smith Priority 1895.

(Signature of applicant)

Remarks: On account of the late priority I hold in the East Branch of Mud creek and the decreasing supply of late years I haven't had sufficient supply from Mud creek to raise crops.

This well is used in connection with a sprinkling system.

STATE OF OREGON, } ss.
County of Marion. }

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for .....

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before ..... 19 .....

WITNESS my hand this ..... day of ..... 19 .....

STATE ENGINEER

By ..... ASSISTANT

County of Marion,

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.38 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well.

The use to which this water is to be applied is supplemental irrigation.

If for irrigation, this appropriation shall be limited to 1/80 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year; provided further that the amount of water allowed herein, together with the amount secured under any other right existing for the same lands shall not exceed the limitation allowed herein.

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is January 27, 1958

Actual construction work shall begin on or before March 25, 1959 and shall

thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1959

Complete application of the water to the proposed use shall be made on or before October 1, 1960

WITNESS my hand this 25th day of March, 1958.

STATE ENGINEER
