

Application No. G8320

Permit No. G 7665

STATE OF OREGON WATER RESOURCES DEPARTMENT
Application for a Permit to Appropriate Ground Water

I, Mrs. Irma L. Taylor (Mrs Robert E.)
(Name of Applicant)

of 2735 N. E. VanBuren Blvd., Corvallis
(Mailing Address) (City)

State of Oregon, 97330 Phone No. 753-4081
(Zip Code) do hereby

make application for a permit to appropriate the following described ground waters of the State of Oregon:

1. The development will consist of 1 well
(Give number of wells, tile lines, infiltration galleries, etc.)

having a diameter of 8" and an estimated depth of 348 feet.

~~none~~ 2. The well or other source is to be located 660 ft. S and 920 ft. E
(N. or S.) (E. or W.)

from the NW corner of MURKAY DMC #69
(Public Land Survey Corner)

(If there is more than one well, each must be described)

being within the SE $\frac{1}{4}$ of the NE $\frac{1}{4}$ of

Sec. 36 Tp. 11S R. 5W, W. M., in the county of LINN

3. Location of area to be irrigated, or place of use if use other than irrigation.

Township	Range	Section	List $\frac{1}{4}$ $\frac{1}{4}$ of Section	List use and/or number of acres to be irrigated
11s	5W	36	SE $\frac{1}{4}$ NE $\frac{1}{4}$	18

4. It is estimated that 34' feet of the well will require 8" casing.
(Kind)

5. Depth to water table is estimated 21' Well drilled by Taylor Well Drilling
(Feet)

6. The amount of water which the applicant intends to apply to beneficial use is cubic feet per second or350..... gallons per minute.

7. The use to which the water is to be applied isirrigated farm crops.....

8. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

none

9. If the location of the well, or other development work is less than one-fourth mile from a natural stream channel, give the distance to the channel and the difference in elevation between the stream bed and the ground surface at the source of development.

does not apply

10.

DESCRIPTION OF WORKS

Include length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

Power take-off pump 3" intake, 3" outlet. 4008 4' mainline, 2 150 GPM at 60 PSI. , sprinklers.

11. Construction work will begin on or before.....completed.....

12. Construction work will be completed on or before..... ---6/4/77.....

13. The water will be completely applied to the proposed use on or before.....7/10/77.....

14. If the ground water supply is supplemental to an existing supply, identify the supply and existing water right.....

Application No. 68300.....

Permit No. G 7665.....

G 7665

Remarks:.....

This well was drilled to replace an existing registered well which which had been rendered inoperable.

I do not wish to waive the Ground Water Registration Certificate No. 1670 filed by my late husband, Robert E. Taylor on June 10, 1958.

Ima L. Taylor
Signature of Applicant

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for completion.

In order to retain its priority, this application must be returned to the Water Resources Director with corrections on or before January 23, 1978.

WITNESS my hand this 23rd day of November, 1977.

Application No. 68320

Permit No. G 7665

2833

Permit to appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.23 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is irrigation.

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year; provided further that the right allowed herein shall be limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is August 2, 1977

Actual construction work shall begin on or before December 28, 1978 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1979

Complete application of the water to the proposed use shall be made on or before October 1, 1980

WITNESS my hand this 28th day of December, 1977

James B. Larson
Water Resources Director
