

Application No. G 7976

Permit No. G 7670

STATE OF OREGON WATER RESOURCES DEPARTMENT

Application for a Permit to Appropriate Ground Water

I, Riverbend Farm  
 of Star Rt. Box 20c St. Paul  
 (Mailing Address) (City)  
 State of Oregon 97137 Phone No. 633-4232 do hereby  
 (Zip Code)  
 make application for a permit to appropriate the following described ground waters of the State of Oregon:

1. The development will consist of 2 wells  
 (Give number of wells, tile lines, infiltration galleries, etc.)  
 having a diameter of #1 18 and an estimated depth of 256 feet.  
 #2 12  
 2. The well or other source is to be located 3700 ft. N and 2120 ft. NE  
 (N. or S.) (E. or W.)  
 from the SE corner of Feister DLC #73  
 (Public Land Survey Corner)

(If there is more than one well, each must be described)  
 being within the SE  $\frac{1}{4}$  of the SE  $\frac{1}{4}$  of  
 Sec. 12 Tp. 5S R. 3W, W. M., in the county of Marion

3. Location of area to be irrigated, or place of use if use other than irrigation.

| Township  | Range     | Section  | List $\frac{1}{4}$ $\frac{1}{4}$ of Section | List use and/or number of acres to be irrigated |
|-----------|-----------|----------|---------------------------------------------|-------------------------------------------------|
| <u>5S</u> | <u>2W</u> | <u>6</u> | <u>SW NW</u>                                | <u>18.9</u>                                     |
|           |           |          | <u>SE NW</u>                                | <u>10.8</u>                                     |
|           |           |          | <u>NE SW</u>                                | <u>7.3</u>                                      |
|           |           |          | <u>NW SW</u>                                | <u>3.0</u>                                      |
|           |           |          |                                             | <u>40.0</u>                                     |
| <u>5S</u> | <u>3W</u> | <u>1</u> | <u>SE SE</u>                                | <u>Cannery</u>                                  |
|           |           |          |                                             |                                                 |
|           |           |          |                                             |                                                 |
|           |           |          |                                             |                                                 |
|           |           |          |                                             |                                                 |

4. It is estimated that #1 405 feet of the well will require Steel casing.  
 #2 256  
 (Kind)  
 5. Depth to water table is estimated 80 Well drilled by Milo Snider  
 (Feet)

6. The amount of water which the applicant intends to apply to beneficial use is 0.54 cubic feet per second or gallons per minute. being 0.5 cfs from Well # 2 for irrigation & 0.04 cfs for cannery.

7. The use to which the water is to be applied is any deficiency in well # 2 for Irrigation to come from Well # 1

8. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

9. If the location of the well, or other development work is less than one-fourth mile from a natural stream channel, give the distance to the channel and the difference in elevation between the stream bed and the ground surface at the source of development.

10.

#### DESCRIPTION OF WORKS

Include length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

50 hp electric motor & turbine pump in well #2 for Irrig.

5 hp electric motor & submersible pump in well # 2 for cannery - average use in cannery about 20 gpm.

Cannery use - boilers, clean-up.

well # 1 150 hp Turbine portable sprinkler system

11. Construction work will begin on or before Started -

12. Construction work will be completed on or before 7/1/78

13. The water will be completely applied to the proposed use on or before Oct 1, 1978

14. If the ground water supply is supplemental to an existing supply, identify the supply and existing water right.

Application No. G 7976

Permit No. G 7670

## Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same, **SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD** and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.54 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from two wells

The use to which this water is to be applied is irrigation and cannery use; being 0.5 c.f.s. for irrigation and 0.04 c.f.s. for cannery use from well # 2, with any deficiency in the supply of water for irrigation from well # 2 to be made up from well # 1.

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is September 6, 1977

Actual construction work shall begin on or before December 28, 1978 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1979

Complete application of the water to the proposed use shall be made on or before October 1, 1980

WITNESS my hand this 28th day of December, 1977

  
Water Resources Director
