

Application No. G8081

Permit No. G 7742

**STATE OF OREGON WATER RESOURCES DEPARTMENT**  
**Application for a Permit to Appropriate Ground Water**

RECEIVED  
 JUL 19 1977

I, Phil D. Beck and Caroline J. Beck  
 (Name of Applicant) WATER RESOURCES DEPT  
 SALEM, OREGON

of 13 S.E. 10th Street Pendleton  
 (Mailing Address) (City)

State of Oregon, 97801 Phone No. 276-7504 (bus. # 276-2662) do hereby  
 (Zip Code)

make application for a permit to appropriate the following described ground waters of the State of Oregon:

1. The development will consist of one well  
 (Give number of wells, tile lines, infiltration galleries, etc.)

having a diameter of 8" and an estimated depth of 200 feet.

2. The well or other source is to be located 1650 ft. S and 500 ft. E  
 (N. or S.) (E. or W.)

from the common corner of sections 33, 34, and 3 (T. IN, R. 32 E.W.M.)  
 (Public Land Survey Corner)

(NW Cor Sec 3 T.1N.R.32E.)  
 (If there is more than one well, each must be described)

said well being within the SW  $\frac{1}{4}$  of the NW  $\frac{1}{4}$  of  
 Sec. 3 Tp. IN R. 32 E, W. M., in the county of UMATILL A

3. Location of area to be irrigated, or place of use if use other than irrigation.

Township	Range	Section	List $\frac{1}{4}$ $\frac{1}{4}$ of Section	List use and/or number of acres to be irrigated
IN	32 E	3	SW NW	irrigation 10.0 acres
IN	32 E	3	NW SW	irrigation 6.0 acres

4. It is estimated that 25 feet of the well will require standard casing.  
 (Kind)

5. Depth to water table is estimated 150 Well drilled by plan to have Wallace well drilling  
 (Feet)

6. The amount of water which the applicant intends to apply to beneficial use is 207 cubic feet per second or 300 gallons per minute.

7. The use to which the water is to be applied is Irrigation - ~~stock watering - (domestic use)~~ <sup>(and future)</sup>  
(Primarily for irrigation.)

8. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

9. If the location of the well, or other development work is less than one-fourth mile from a natural stream channel, give the distance to the channel and the difference in elevation between the stream bed and the ground surface at the source of development.

10. DESCRIPTION OF WORKS

Include length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

200 GPM Submersible 10 HP Electric pump, 1250 feet of portable pipe.

(More portable pipe will be added later if necessary.)

( Note! concerning dates for start and completion of project, after filling these dates in I have found there could be a considerable delay in being able to get scheduled with driller. )

11. Construction work will begin on or before ~~August 1, 1977~~ July 1, 1978

12. Construction work will be completed on or before ~~August 1, 1978~~ Dec. 1, 1978

13. The water will be completely applied to the proposed use on or before ~~August 1, 1978~~ June 1, 1980

14. If the ground water supply is supplemental to an existing supply, identify the supply and existing water right. Permit # G- G 4421 ( refer to file # G-4703 ) Lee M. And Natalie

Anderson. ( new application G-8210 - Phil Beck & Caroline Beck )

Application No. ~~6 8281~~ 6 8281

Permit No. ~~6 7742~~ G 7742

( Note ! I believe Anderson let water right lapse due to serious heart condition and refiled again, 6/77. )

Remarks: My wife and I are buying the Anderson property and plan to drill a new well in order to be able to irrigate the entire 23 acres by using both the new well and the existing well. I understand the Anderson's let the water right lapse when Dr. Anderson was seriously ill and have refiled for a new water right. The existing well only has the capacity at present to irrigate about 7 acres and I would like to have the application that they submitted to you reduced from the 21 acres they filled for to 7 acres so I will be able to file on and use the new well I am herein filing on. I will ask Dr. Anderson to make a similar request to you in a letter.

### Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.2 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well.

The use to which this water is to be applied is irrigation.

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is July 19, 1977

Actual construction work shall begin on or before January 20, 1979 and shall

thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1979

Extended to Oct. 1 1980

Complete application of the water to the proposed use shall be made on or before October 1, 1980

WITNESS my hand this 20th day of January, 1978

*James E. Severin*  
Water Resources Director
