

CERTIFICATE NO. 53081

Application No. G-8350

Permit No. G 7750

STATE OF OREGON WATER RESOURCES DEPARTMENT

Application for a Permit to Appropriate Ground Water

RECEIVED
MAY 19 1977
WATER RESOURCES DIVISION
SALEM, OREGON

I, JOHN R HALLADAY (Name of Applicant)

of RT-3-Box 3501 (Mailing Address), HERMISTON (City)

State of OREGON (Zip Code) 97838 Phone No. 567-5797 do hereby

make application for a permit to appropriate the following described ground waters of the State of Oregon:

1. The development will consist of one well (Give number of wells, tile lines, infiltration galleries, etc.)

having a diameter of 8 inch and an estimated depth of 170 ft. feet.

2. The well or other source is located 500 ft. S (N. or S.) and 1130 ft. W (E. or W.)

from the center corner of sec. 32 (Public Land Survey Corner)

(If there is more than one well, each must be described)

being within the NE 1/4 of the SW 1/4 of Sec. 32 Tp. 5 N R. 29 E, W. M., in the county of Umatilla.

3. Location of area to be irrigated, or place of use if use other than irrigation.

Township	Range	Section	List 1/4 1/4 of Section	List use and/or number of acres to be irrigated
5N	29	32	W 1/2 NE 1/4 SW 1/4	14.06

4. It is estimated that 63 feet of the well will require 8 in casing. (Kind)

5. Depth to water table is estimated 20 (Feet) Well drilled by Troy Griffin

6. The amount of water which the applicant intends to apply to beneficial use is 183 cubic feet per second or 82.4 gallons per minute.

7. The use to which the water is to be applied is Supplemental Irrigation

8. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

..... Dose not Apply

9. If the location of the well, or other development work is less than one-fourth mile from a natural stream channel, give the distance to the channel and the difference in elevation between the stream bed and the ground surface at the source of development.

10.

DESCRIPTION OF WORKS

Include length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

..... will use 3 in hard line & main line
7/2 submersible Pump

11. Construction work will begin on or before..... started

12. Construction work will be completed on or before..... started

13. The water will be completely applied to the proposed use on or before..... completed

14. If the ground water supply is supplemental to an existing supply, identify the supply and existing water right.

..... USA line Umatilla River Decree Decree U3 P243

Application No. G-8352

Permit No. G 7750

G 8352

Remarks: am unable to use flood water on approximately 8 acres on account drain ditch cuts through that portion. Due to drought flood water not available on 6.06 acres, so would like to file ~~WATER RIGHT~~ SUPPLEMENTAL WATER RIGHT ON WELL THAT WAS DRILLED 2-17-77 AND IS MARKED ON MAP

Application No. G-8352

Permit No. G 7750

Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.18 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is supplemental irrigation.

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year; provided further that the right allowed herein shall be limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer. The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times. The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is August 9, 1977

Actual construction work shall begin on or before January 20, 1979 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1979

Complete application of the water to the proposed use shall be made on or before October 1, 1980

WITNESS my hand this 20th day of January, 1978

James P. Sisson
Water Resources Director
