

Application No. G-8509

Permit No. G 7793

RECEIVED

STATE OF OREGON WATER RESOURCES DEPARTMENT

Application for a Permit to Appropriate Ground Water

MAILED 10/10/77

WATER RESOURCES DEPT SALEM, OREGON

WILLIAM J. DAHLSEID (Name of Applicant)

of Rt 2 Box 253 WOODBURN (Mailing Address) (City)

State of OREGON 97071 Phone No. 634-2328 (Zip Code)

do hereby make application for a permit to appropriate the following described ground waters of the State of Oregon:

1. The development will consist of 1 SUMP AND 1 WELL (Give number of wells, tile lines, infiltration galleries, etc.)

having a diameter of 6" and an estimated depth of 114 feet.

2. The well or other source is to be located SUMP 220 N 880 E WELL 200 ft N and 600 ft E (N. or S.) (E. or W.)

from the SW corner of SEC 30 (Public Land Survey Corner)

(If there is more than one well, each must be described)

being within the SW 1/4 of the SW 1/4 of Sec. 30 Tp. 5 S R. 1 E, W. M., in the county of CLATSOP

3. Location of area to be irrigated, or place of use if use other than irrigation.

Table with 5 columns: Township, Range, Section, List 1/4 1/4 of Section, List use and/or number of acres to be irrigated. Contains handwritten entries for Township 5 S, Range 1 E, Section 30, and irrigation details.

4. It is estimated that 106 feet of the well will require STEEL casing. (Kind)

5. Depth to water table is estimated 15 feet. Well drilled by

6. The amount of water which the applicant intends to apply to beneficial use is 0.14 cubic feet per second or gallons per minute. BEING 0.05 cfs from well AND 0.09 cfs FROM SUMP.

7. The use to which the water is to be applied is IRRIGATION

8. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

9. If the location of the well, or other development work is less than one-fourth mile from a natural stream channel, give the distance to the channel and the difference in elevation between the stream bed and the ground surface at the source of development.

10.

DESCRIPTION OF WORKS

Include length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

3 H.P. SUBMERSIBLE ON WELL

2 H.P. CENTRIF. PUMP ON SUMP

Approx 1400' 3" ALUM MAIN AND 800ft 2" ALUM LATERAL

11. Construction work will begin on or before..... COMPLETE

12. Construction work will be completed on or before..... COMPLETE

13. The water will be completely applied to the proposed use on or before..... COMPLETE

14. If the ground water supply is supplemental to an existing supply, identify the supply and existing water right.....

Application No. G-8809

Permit No. G 7793

G 7793

Remarks: Sump is a excavation that
has a max. depth of 10 ft.
fills from ground water.

Application No. G-8509

Permit No. G 7793

Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.14 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well and sump; being 0.05 c.f.s. from a well, and 0.09 c.f.s. from a sump.

The use to which this water is to be applied is irrigation.

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year; and shall be further limited to appropriation of water only to the extent that it does not impair or substantially interfere with existing surface water rights of others,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

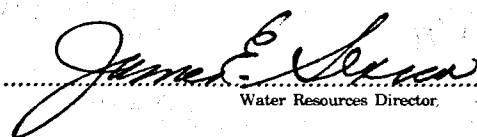

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is October 28, 1977

Actual construction work shall begin on or before February 8, 1979 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1979

Complete application of the water to the proposed use shall be made on or before October 1, 1980

WITNESS my hand this 8th day of February, 19 78

Water Resources Director.
