

Application No. G-8357

Permit No. G 7862

STATE OF OREGON WATER RESOURCES DEPARTMENT
Application for a Permit to Appropriate Ground Water

I, William N. Strubhar (Name of Applicant)
of Rt 1 Box 88 (Mailing Address), Hubbard (City)
State of OR (State), 97030 (Zip Code) Phone No. 782-9341 do hereby

make application for a permit to appropriate the following described ground waters of the State of Oregon:

- The development will consist of one well (Give number of wells, tile lines, infiltration galleries, etc.)
having a diameter of 12 and an estimated depth of 114 feet.
- The well or other source is to be located 665 ft. N (N. or S.) and 700 ft. W (E. or W.)
from the NE corner of D664 (Public Land Survey Corner)

(If there is more than one well, each must be described)

being within the SW $\frac{1}{4}$ of the NE $\frac{1}{4}$ of
Sec. 35 Tp. 4S R. 1W, W. M., in the county of Marion.

3. Location of area to be irrigated, or place of use if use other than irrigation.

Township	Range	Section	List $\frac{1}{4}$ $\frac{1}{4}$ of Section	List use and/or number of acres to be irrigated
4S	1W	35	SW $\frac{1}{4}$ NE $\frac{1}{4}$	7.0 Prim
		36	SW $\frac{1}{4}$ NW $\frac{1}{4}$	9.1 Suppl

- It is estimated that all feet of the well will require std steel casing. (Kind)
- Depth to water table is estimated 3' (Feet) Well drilled by John Miller

6. The amount of water which the applicant intends to apply to beneficial use is 0.2 cubic feet per second or gallons per minute.

7. The use to which the water is to be applied is Irrigation

8. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

not artesian

9. If the location of the well, or other development work is less than one-fourth mile from a natural stream channel, give the distance to the channel and the difference in elevation between the stream bed and the ground surface at the source of development.

110' to down stream 22' diff in elevation

10. **DESCRIPTION OF WORKS**

Include length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

15hp turbine portable irrig system to be purchased

Water will be pumped to stream channel & repumped in tracts in sec 36 for supply irrig

11. Construction work will begin on or before well drilled

12. Construction work will be completed on or before 10-1-78

13. The water will be completely applied to the proposed use on or before 10-1-79

14. If the ground water supply is supplemental to an existing supply, identify the supply and existing water right. Part suppl to cert 42319 & 14714

Permit No. **G 7862**

G 4865

Application No. G-8357

Permit No. G 7862

Permit to appropriate the Public Waters of the State of Oregon

G 2805

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.20 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well.

The use to which this water is to be applied is irrigation and supplemental irrigation.

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year; provided further that the right allowed herein shall be limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein, provided further that the amount of water rediverted from the channel of the unnamed stream shall not exceed the amount by which the flow of the unnamed stream, at the point of rediversion, is increased above the natural flow by the operation of said well, and measuring devices be installed as directed by the water master, and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is August 10, 1977

Actual construction work shall begin on or before March 1, 1979 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1979

Complete application of the water to the proposed use shall be made on or before October 1, 1980

WITNESS my hand this 1st day of March, 1978

James E. Saxon Water Resources Director
