STATE OF OREGON WATER RESOURCES DEPARTMENT

DEC 16 1977

Application for a Permit to Appropriate Ground Water

WATER RESOURCES DEPT SALEM, OREGON

I, FRERES LUMBER CO. (Name of Applicant)

of P. O. Box 8 Lyons, Oregon 97358 (Mailing Address) (City)

State of Oregon, 97358 (Zip Code) Phone No. 859-2121 do hereby

make application for a permit to appropriate the following described ground waters of the State of Oregon:

1. The development will consist of one well (Give number of wells, tile lines, infiltration galleries, etc.)

having a diameter of 10 inches and an estimated depth of 219 feet.

2. The well or other source is to be located 1390 ft. north and 690 ft. west (N. or S.) (E. or W.)

from the section corner of common to sections 19, 20, 29 and 30 (Public Land Survey Corner)

(If there is more than one well, each must be described)

being within the NE 1/4 of the SE 1/4 of Sec. 19 Tp. 9S R. 2E, W. M., in the county of Linn

3. Location of area to be irrigated, or place of use if use other than irrigation.

Table with 5 columns: Township, Range, Section, List 1/4 1/4 of Section, List use and/or number of acres to be irrigated. Row 1: 9S, 2E, 19, NW 1/4 SE 1/4, Industrial use.

4. It is estimated that 219 feet of the well will require steel casing. (Kind)

5. Depth to water table is estimated 25 feet. Well drilled by Eola Well Drilling. (Feet)

6. The amount of water which the applicant intends to apply to beneficial use is cubic feet per second or320..... gallons per minute.

7. The use to which the water is to be applied isIndustrial.....

8. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

.....Not applicable.....

9. If the location of the well, or other development work is less than one-fourth mile from a natural stream channel, give the distance to the channel and the difference in elevation between the stream bed and the ground surface at the source of development.

.....Not applicable.....

10. DESCRIPTION OF WORKS

Include length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

210 feet of galvanized pipe will be put down the well and attached to a
25 horsepower Burkley submersible pump. The water will then be piped approximately
20 feet to an existing storage ~~pond~~ pond. The water will then be used to
supplement the storage pond for our fire sprinkler system and to sprinkle
our log decks. The water will not be used for human consumption.

11. Construction work will begin on or beforeSeptember 23, 1977.....

12. Construction work will be completed on or beforeMarch, 1978.....

13. The water will be completely applied to the proposed use on or before..... May, 1978.....

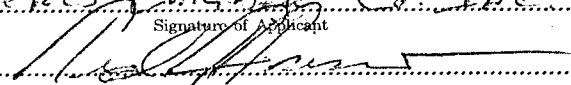

14. If the ground water supply is supplemental to an existing supply, identify the supply and existing water right.existing supply in an unnamed spring permit no. 27047.....

Application No. G-8581

Permit No. G 7900

Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING MINIMUM FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.71 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well.

The use to which this water is to be applied is industrial use.

If for irrigation, this appropriation shall be limited to of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed acre feet per acre for each acre irrigated during the irrigation season of each year; and shall be further limited to appropriation of water only to the extent that it does not impair or substantially interfere with existing surface water rights of others,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer. The well shall be constructed in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon. The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times. The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is December 16, 1977

Actual construction work shall begin on or before March 10, 1979 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1979

Complete application of the water to the proposed use shall be made on or before October 1, 1980

WITNESS my hand this 10th day of March, 1978

James E. Seaton
Water Resources Director
